Cost Control In Hospitals:

The Hospital Power Equilibrium David W. Young, Richard B. Saltman, 1985 **Cost Control in Hospitals** John R. Griffith, Walton M. Hancock, Fred C. Munson, 1975 **Using Casemix System for Hospital Reimbursement in Social Health Insurance Programme** Syed Aljunid, Eka Yoshida Syukri, 2020-11-26 Social Health Insurance SHI is one of the vehicles in achieving Universal Health Coverage However in many low and middle income countries implementation of SHI failed to provide efficient and effective coverage due to poor provider payment method Indonesia has introduced social health insurance in 2014 With the population of more than 270 million Indonesia is the biggest country in the world that implemented SHI with casemix system INA CBG as the prospective provider payment method In this book we presented an outcome of a study implemented in the largest hospital in Jakarta Indonesia that compared the impact of using casemix system as provider payment method with fee for service A total 32 227 outpatients and 8 270 inpatients medical records were reviewed and included in the study In addition a survey was also conducted among billing administrators to assess the cost of the billing process and their perceptions on the two reimbursement methods The total hospital charges length of stay of inpatients rate of unnecessary admissions and cost of billing process were among the indicators of efficiency compared in the study between the two provider payment methods The book provides comprehensive evidence to confirm the advantages of casemix system as an efficient provider payment method in SHI programme Hospital Administration and Management, 1951 Cost Management for Hospitals John G. McKee, 2023-03-07 Hospital City Health Care Nation recasts the story of the U S health care system by emphasizing its economic social and medical importance in American communities Focusing on urban hospitals and academic medical centers the book argues that the country s high level of health care spending has allowed such institutions to become vital if

often problematic economic anchors for communities Yet that spending has also constrained possibilities for comprehensive health care reform over many decades even after the passage of the Affordable Care Act in 2010 At the same time the role of hospitals in urban renewal in community health provision and as employers of low wage workers has contributed directly to racial health disparities Guian A McKee explores these issues through a detailed historical case study of Baltimore s Johns Hopkins Hospital while also tracing their connections across governmental scales local state and federal He shows that health care spending and its consequences rather than insurance coverage alone are core issues in the decades long struggle over the American health care system In particular Hospital City Health Care Nation points to the increased role of financial capital after the 1960s in shaping not only hospital growth but also the underlying character of these vital institutions The book shows how hospitals quest for capital has interacted with structural racism and inequality to shape and constrain the U S health care system Building on this reassessment of the hospital system its politics and its financing Hospital City Health Care Nation offers ideas for the next steps in health care reform
