**Deference and Defiance in Monterrey** Michael Snodgrass, 2003-06-02 This book explores how workers both perceived and responded to and helped shape the outcome of Mexico's revolution [Deference and defiance in Monterrey](#) Michael David Snodgrass, 1998 [Working Women, Entrepreneurs, and the Mexican Revolution](#) Heather Fowler-Salamini, 2020-04-01 In the 1890s Spanish entrepreneurs spearheaded the emergence of Córdoba Veracruz as Mexico's largest commercial center for coffee preparation and export to the Atlantic community Seasonal women workers quickly became the major part of the agroindustry's labor force As they grew in numbers and influence in the first half of the twentieth century these women shaped the workplace culture and contested gender norms through labor union activism and strong leadership Their fight for workers rights was supported by the revolutionary state and negotiated within its industrial labor institutions until they were replaced by machines in the 1960s Heather Fowler Salamini's *Working Women Entrepreneurs and the Mexican Revolution* analyzes the interrelationships between the region's immigrant entrepreneurs workforce labor movement gender relations and culture on the one hand and social revolution modernization and the Atlantic community on the other between the 1890s and the 1960s Using extensive archival research and oral history interviews Fowler Salamini illustrates the ways in which the immigrant and women's work cultures transformed Córdoba's regional coffee economy and in turn influenced the development of the nation's coffee agro export industry and its labor force [Made in Mexico](#) Susan M. Gauss, 2010-11-03 The experiment with neoliberal market oriented economic policy in Latin America popularly known as the Washington Consensus has run its course With left wing and populist regimes now in power in many countries there is much debate about what direction economic policy should be taking and there are those who believe that state led development might be worth trying again Susan Gauss's study of the process by which Mexico transformed from a largely agrarian society into an urban industrialized one in the two decades following the end of the Revolution is especially timely and may have lessons to offer to policy makers today The image of a strong centralized corporatist state led by the Partido Revolucionario Institucional PRI from the 1940s conceals what was actually a prolonged messy process of debate and negotiation among the postrevolutionary state labor and regionally based industrial elites to define the nationalist project *Made in Mexico* focuses on the distinctive nature of what happened in the four regions studied in detail Guadalajara Mexico City Monterrey and Puebla It shows how industrialism enabled recalcitrant elites to maintain a regionally grounded preserve of local authority outside of formal ruling party institutions balancing the tensions among centralization consolidation of growth and Mexico's deep legacies of regional authority **Working Women into the Borderlands** Sonia Hernández, 2014-02-18 In *Working Women into the Borderlands* author Sonia Hernández sheds light on how women's labor was shaped by US capital in the northeast region of Mexico and how women's labor activism simultaneously shaped the nature of foreign investment and relations between Mexicans and Americans As capital investments fueled the growth of heavy industries in cities and ports

such as Monterrey and Tampico women's work complemented and strengthened their male counterparts labor in industries which were historically male dominated As Hernandez reveals women laborers were expected to maintain their proper place in society and work environments were in fact gendered and class based Yet these prescribed notions of class and gender were frequently challenged as women sought to improve their livelihoods by using everyday forms of negotiation including collective organizing labor arbitration boards letter writing creating unions assuming positions of confianza trustworthiness and by migrating to urban centers and or crossing into Texas Drawing extensively on bi national archival sources newspapers and published records Working Women into the Borderlands demonstrates convincingly how women's labor contributions shaped the development of one of the most dynamic and contentious borderlands in the globe *Dictablanda* Paul Gillingham, Benjamin T. Smith, 2014-04-02 In 1910 Mexicans rebelled against an imperfect dictatorship after 1940 they ended up with what some called the perfect dictatorship A single party ruled Mexico for over seventy years holding elections and talking about revolution while overseeing one of the world's most inequitable economies The contributors to this groundbreaking collection revise earlier interpretations arguing that state power was not based exclusively on hegemony corporatism or violence Force was real but it was also exercised by the ruled It went hand in hand with consent produced by resource regulation political pragmatism local autonomies and a popular veto The result was a dictablanda a soft authoritarian regime This deliberately heterodox volume brings together social historians anthropologists sociologists and political scientists to offer a radical new understanding of the emergence and persistence of the modern Mexican state It also proposes bold multidisciplinary approaches to critical problems in contemporary politics With its blend of contested elections authoritarianism and resistance Mexico foreshadowed the hybrid regimes that have spread across much of the globe Dictablanda suggests how they may endure Contributors Roberto Blancarte Christopher R Boyer Guillermo de la Peña María Teresa Fernández Aceves Paul Gillingham Rogelio Hernández Rodríguez Alan Knight Gladys McCormick Tanal's Padilla Wil G Pansters Andrew Paxman Jaime Pensado Pablo Piccato Thomas Rath Jeffrey W Rubin Benjamin T Smith Michael Snodgrass *Labor*, 2005 **Border Cities and Culture** Andrew G.
