Lifestyle revolution Ben Highmore, 2023-02-21. In postwar Britain, journalists and politicians predicted that the class system would not survive a consumer culture where everyone had TVs and washing machines and where more and more people owned their own homes. They were to be proved hopelessly wrong. Lifestyle revolution charts how class culture rather than being destroyed by mass consumption was remade from flat pack furniture, Mediterranean cuisine and lifestyle magazines. Novelists, cartoonists and playwrights satirised the tastes of the emerging middle classes while sociologists claimed that an entire population was suffering from status anxiety but underneath it all a new order was being constructed out of duvets, quiches and mayonnaise, easy chairs from Habitat, white emulsion paint and ubiquitous pine kitchen tables. More than just a world of symbolic goods, this was an intimate environment alive with new feelings and attitudes. *People of the Day 3* Peter Wynter Bee, 2008-07. *Food Gurus* Stephen Vines, 2025-08-05. A fascinating overview of culinary history exploring the lives of twenty people who have impacted the way we dine. An intriguing dip into the lives and obsessions of an eclectic round up of ancient and modern food heroes whose tastes affect ours. Easy to digest great recipes and some surprises. Lindsey Bareham. The Times London. Centuries ago, humankind thought of food as mere sustenance but over time it has evolved into something bigger. Now single dishes and entire cuisines can become trendy cultural phenomena and media obsessions around the world. Why? How did we get here? Throughout history there have been individuals who for better or worse have transformed how we eat and how we think about what we eat. In *Food Gurus*, author Stephen Vines delves into the culinary past and examines the careers and legacies of twenty of these influential people. They are chefs, writers, entrepreneurs and other icons of the food world. Vines discusses each guru's personal journey, their character and passion and the social events and history that shaped their approach to food. There are even recipes to better illustrate the type of cooking they produced or had someone make for them. Among the gurus are the inventor of molecular gastronomy Ferran Adrià, one of Britain's most influential cookery writers Isabella Beeton, the mother of American cooking and voice for sustainable agriculture Alice Waters and food industry innovator and entrepreneur Henry Heinz. Other featured gurus include Robert Atkins, James Beard, Paul Bocuse, Antonin Carême, Julia Child, Elizabeth David, Raymond Ray Kroc, Catherine de Medici, Jamie Oliver, Gordon Ramsay. And more. Whether you enjoy history, eating or sociology, *Food Gurus* has something to sate your appetite. Vines's choice of gurus is canny, amusing and well researched, telling the reader not only about his heroes' virtues but also their clay feet. Paul Levy co-author of *The Official Foodie Handbook*. [A Visual History of Cookery](#) Duncan McCorquodale, 2009. Photographs and illustrations of culinary history and branding throughout the ages. *Delia's Cakes*
