ways in which they have come unglued Igoe and Kelsall provide useful suggestions on how to understand historical and cultural contexts of NGOs Development and Change The volume consists of eleven chapters which provide rich ethnographic studies covering the entire continent T he chapters interact and engage with one another creating an excellent collection of essays that together provides a rich multilayered and thought provoking introduction to the dramatic growth of NGOs in Africa since 1990 The International Journal of African Historical Studies **Handbook of Latin American and Caribbean Studies in the UK** University of London.
