Ancient Jewish Food in Its Geographical and Cultural Contexts Susan Weingarten, 2025-03-25 This book is the first in depth study of food in talmudic literature in its geographical and cultural contexts It demonstrates the sharing of foods and foodways between Jews and their non Jewish neighbours in the Near East in Late Antiquity Using both ancient written sources and archaeological evidence this book sets the foods of the Mishnah and Palestinian Talmud in their Graeco Roman context and the foods of the Babylonian Talmud and the ge onim in their Persian and Arab contexts It explores practices of food preparation and their contribution to the ancient diet as well as analysing the relationships between food status and culture The rabbinical authors of talmudic literature were more concerned with everyday food than were aristocratic Classical authors by examining both talmudic sources and archaeological finds this book paints a new picture of the diet lifestyle and culture of ordinary people Ancient Jewish Food in Its Geographical and Cultural Contexts will interest Food Historians as well as students and scholars of Jewish Studies particularly the period of the Mishnah and Talmud as well as those dealing with the wider social and cultural history of the Ancient Near East

Dining in the Late Roman East Nicholas F. Hudson, 2006

Feast, Fast Or Famine Wendy Mayer, Silke Trzcionka, 2005 In recent decades there has been an increasing interest in the study of food and drink in the ancient Mediaeval and Byzantine worlds and of their supply and consumption This volume presents selected papers from the biennial

conference of the Australian Association for Byzantine Studies which was held at the University of Adelaide 11-12 July 2003. The theme was food and drink in Byzantium. Published selectively in the present volume, the papers of the conference are augmented by contributions from international scholars. While some papers address the use of food directly—children's diet, fasting, or tangentially in love spells—or discuss philosophical approaches towards food, vegetarianism, other papers in this volume examine the topic from another perspective: the role and perception of food and drink and their consumption in society. Yet others examine issues of supply, military logistics, and the role it played in shaping Byzantium. This volume will appeal to readers interested in the history of food in late antiquity and Byzantine society, in Byzantine rhetoric, in magic in late antiquity, and in the Jews in early Byzantium.

Entertaining from Ancient Rome to the Super Bowl: H-Z Melitta Weiss Adamson, Francine Segan, 2008 **Art and Society in Fourth-century Britain** Sarah Scott, 2000. This volume builds upon the copious and varied research on villa mosaics in Roman Britain and evaluates it within the context of elite social life in the 4th century AD. It argues that the mosaics were an integral part of the rich lifestyle of the elite in this period and played an important role in defining their status. Yet these symbols of power were apparently no longer valued to the same degree by the end of the 4th century. In a period of increasing social and economic instability, the mosaics were one element in an elite lifestyle which was ultimately to prove socially divisive. In this wide-ranging study, Scott considers the significance and long-term impact of the artistic choices made by villa owners.

Mayhem lays out the ferocious arguments and the evidence on each side, as Bok reveals surprisingly ancient roots of the debate, from Roman critics of the gladiatorial games to restrictions on today's Internet.
