Disabling Professions:

Disabling Professions Ivan Illich, 1977 Why do we put so many resources into medicine education and law with so little apparent benefit Why do we hold the professions in awe and allow them to set up what are in effect monopolies This fascinating and controversial collection of essays challenges the power and the mystique of the modern professions

Disabling Professions, 1977 Disabling professions, 1987 Recoding Architecture Pedagogy Nathaniel Coleman, 2025-03-25 Disabled by chasing curricular criteria required for accreditation and professional registration architecture schools are mostly compliance and reproduction machines serving the building industry As a corrective Recoding Architecture Pedagogy Insurgency and Invention asserts disciplinary knowledge over professional skills as the proper aim and focus of architecture education The insurgent pedagogy introduced subverts architecture and its teaching s capture by capitalism s dominant modes of production and consumption to reveal unexpected tactics for enlarging possibilities Grounded in architecture histories and theories philosophy and anarchism s emphasis on use and dissensus combined with PUNK s DIY ethos design studio emphasis on technicity is upended to reveal the subversive aim of intensifying tensions between doomed desires for artistic autonomy and intrinsic burdens of use constituting architecture as a discipline instead of seeking resolution some neutral middle ground or escape into banal practice or paper palaces By concentrating on what architecture education suppresses tensions disavows its capture within the building industry or affirms commercial practice over disciplinary knowledge Recoding Architecture Pedagogy Insurgency and Invention cracks open horizons of possibility by showing how intensifying agonistic relationships between the myriad binaries that characterize architecture and its teaching is generative in ways conciliatory synthesis cathartic resolution and uncritical affirmation are not Disabling professions. Ivan illich, irving kenneth zola, john mcknight, jonathan caplan, harley shaiken, 1977 Faith Seeking Conviviality Samuel E. Ewell III, 2019-12-30 Faith Seeking Conviviality traces the journey of a U S missionary into Brazil and beyond seeking to be faithfully present while also questioning the default settings of good intentions Taking Ivan Illich as the primary theological guide on that journey Faith Seeking Conviviality narrates the discovery of a renewed imagination for Christian mission that arises as a response to two persistent questions First given the colonial history of Christian missionary expansion on what basis do we go on fulfilling the Great Commission Matt 28 16 20 as Christ s disciples A second question intimately related to the first is What makes it possible to embody a distinctively Christian presence that is missionary without being manipulative In doing theology with and after Ivan Illich Faith Seeking Conviviality does not offer a pull off the shelf model for mission but rather a framework for embodying the incarnational logic of mission that entails a convivial turn delinking missionary discipleship from the lure of techniques and institutional dependence in order to receive and to share the peace of Christ relationally **Disabling Professions** Ivan Illich, 1977

Disability Studies Colin Cameron, 2013-11-12 This textbook brings together a wide range of expert voices from the field

of disability studies and the disabled people's movement to tackle the essential topics relevant to this area of study. From the outset, disability is discussed from a social model perspective, demonstrating how future practice and discourse could break down barriers and lead to more equal relationships for disabled people in everyday life. An interdisciplinary and broad-ranging text, the book includes 50 chapters on topics relevant across health and social care. Reflective questions and suggestions for further reading throughout will help readers gain a critical appreciation of the subject and expand their knowledge. This will be valuable reading for students and professionals across disability studies, health, nursing, social work, social care, social policy, and sociology.

Ivan Illich David Cayley, 2021-02-08. In the eighteen years since Ivan Illich's death, David Cayley has been reflecting on the meaning of his friend and teacher's life and work. Now in *Ivan Illich: An Intellectual Journey*, he presents Illich's body of thought, locating it in its own time and retrieving its relevance for ours. Ivan Illich (1926-2002) was a revolutionary figure in the Roman Catholic Church and in the wider field of cultural criticism that began to take shape in the 1960s. His advocacy of a new, de-clericalized church and his opposition to American missionary programs in Latin America, which he saw as reactionary and imperialist, brought him into conflict with the Vatican and led him to withdraw from direct service to the church in 1969. His institutional critiques of the 1970s, from *Deschooling Society* to *Medical Nemesis*, promoted what he called institutional or cultural revolution. The last twenty years of his life were occupied with developing his theory of modernity as an extension of church history. Ranging over every phase of Illich's career and meditating on each of his books, Cayley finds Illich to be as relevant today as ever and more likely to be understood now that the many convergent crises he foresaw are in full public view and the church that rejected him is paralyzed in its folkloric shell. Not a conventional biography, though attentive to how Illich lived, Cayley's book is continuing a conversation with Illich that will engage anyone who is interested in theology, philosophy, history, and the Catholic Church.
