Stephen John Goodlad,2001-03-06 A collection of essays which address various issues confronting democracy in the twenty first century     Theories of Democracy Ronald J. Terchek,Thomas C. Conte,2000-07-31 Theories of Democracy builds on Robert Dahl s observation that there is no single theory of democracy only theories Beyond the broad commitment to rule by the majority democracy involves a set of contentious debates concerning the proper function and scope of power equality freedom justice and interests In this anthology Ronald J Terchek and Thomas C Conte have brilliantly assembled the works of classical modern and contemporary commentators to illustrate the deep and diverse roots of the democratic ideal as well as to provide materials for thinking about the way some contemporary theories build on different traditions of democratic theorizing The arguments addressed in Theories of Democracy appear in the voices of authors who have championed influential theories concerning the opportunities and dangers associated with democratic politics In this collection Terchek and Conte have selected excerpts not as a means for promoting a particular way of looking at democracy but rather they have wisely chosen works that will enable students to carry on an informed discourse on the meaning and purposes of democratic principles and practices Theories of Democracy is a must for every student of democracy s past present and future     **Reader's Guide to Periodical Literature Supplement** ,1923     **Reader's Guide to the Social Sciences** Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense     **Democracy: A Very Short Introduction** Bernard Crick,2002-10-10 No political concept is more used and misused than that of democracy Nearly every regime today claims to be democratic but not all democracies allow free politics and free politics existed long before democratic franchises This book is a short account of the history of the doctrine and practice of democracy and of the usages and practices associated with it in the modern world It argues that democracy is a necessary but not a sufficient condition for good government and that ideas of the rule of law and of human rights should in some situations limit democratic claims     The Reader's Digest De Witt Wallace,Lila Acheson Wallace,1928     *A Reader's Guide to Contemporary Literature* William Swan Sonnenschein,1896     The Reader's Digest of Books Helen Rex Keller,1917     The Elson Readers: (Revision of Elson grammar school reader, book four) William Harris Elson,Christine M.
