Cartulary Of Chatteris Abbey:

The Cartulary of Chatteris Abbey Chatteris Abbey, 1999 15c cartulary of Benedictine nunnery illuminates relationship with Ely estate management and life of women religious Takes its place as perhaps the finest available study of a house for women religious ENGLISH HISTORICAL REVIEW The fifteenth century cartulary of the Benedictine nunnery of Chatteris Abbey in Cambridgeshire founded in the early eleventh century has important implications for the study of women religious especially in the light of the small number of surviving cartularies from English nunneries yet until now it has received little attention perhaps due to its damage in the Cotton Library fire of 1731 This critical edition of the manuscript which contains documents copied into it from the mid twelfth to the fifteenth centuries offers a full transcription together with historical notes and apparatus The introduction draws on the cartulary itself as well as manorial and episcopal records to analyse the nunnery's relationship with its patron the bishop of Ely and the development and management of its estates it also examines the location and layout of the abbey the social and geographical origins of the nuns and the production and organisation of the cartulary The edition is accompanied by an annotated list of all known abbesses prioresses and nuns CLAIR BREAY gained her Ph D at the Institute for Historical Research at the University of London she is currently a curator of medieval manuscripts at the British Library Chatteris Abbey Cartulary, 1997

The Heads of Religious Houses David M. Smith, Vera C. M. London, 2001-08-09 This book is a continuation of *The Heads of Religious Houses England and Wales 940-1216* edited by David Knowles, C. N. L. Brooke and Vera London which itself is reissued with substantial addenda by Professor Brooke This present volume continues the lists from 1216 to 1377 In this period further record sources have been provided by episcopal registers governmental enrolments court records and so on Full references are given for establishing the dates and outline of the career of each abbot or prior abbess or prioress when known The lists are arranged by order the Benedictine houses independent dependencies and alien priories the Cluniacs the Grandmontines the Cistercians the Carthusians the Augustinian canons the Premonstratensians the Gilbertine order the Trinitarian houses the Bonhommes and the nuns An introduction discusses the nature use and history of the lists and examines critically the sources on which they are based Music and Liturgy in Medieval Britain and Ireland Ann Buckley, Lisa Colton, 2022-01-06 Reveals the rich liturgical ecology of medieval Britain and Ireland and the religious and lay communities who shaped it Finance and the Crusades Daniel Edwards, 2021-11-09 This book investigates the financial aspects of crusading in the thirteenth and early fourteenth centuries Taking the kingdom of England as a case study it explores a variety of themes such as how much crusades cost how they were financed how funds were transferred to the East and how crusaders fared financially after their return Its fundamental argument in contrast with current historiography is that it was the private fundraising of individuals not the public fundraising of the Crown and the Church that constituted the life blood of the crusade movement in the period under consideration Indeed it is likely that the crusades were only able to remain central to the religious and political life of

England and indeed western Christendom because participants and those in their connection continued to be willing to sacrifice their own financial wellbeing for the interests of the Holy Land

Gender and Authority in the Late Medieval Church Ian Forrest, 2025-06-15 *Gender and Authority in the Late Medieval Church* asks a deceptively simple question How did the governance of the medieval institutional church remain exclusively male despite plentiful evidence of women being as capable and devout as men The remarkable endurance of an all male clergy is an important element of medieval church government one that is frequently taken for granted in the historiography and is connected to another overlooked feature of episcopal authority the strategies that bishops used to secure the compliance of a relatively autonomous clergy As Ian Forrest shows bishops kept their clergy in check through normative standards of masculinity that necessarily disqualified women from leadership roles Everywhere in the medieval church were women who had the capacity the resources and often the ambition to take part in governance from abbesses to priests servants mothers sisters and unofficial wives Bringing together evidence of female activity at the margins of the institutional church Forrest argues that the male monopoly on formal power was haunted by female capability and aspiration at every turn Drawing on case studies from the English diocesan clergy between the mid thirteenth and early sixteenth centuries he explores how women s involvement in governance was rendered unthinkable through the very discursive strategies that bishops used to control their male clergy In doing so *Gender and Authority in the Late Medieval Church* tells an integrated history that explains how both the exclusion of women and the inclusion of men underpin a rigidly gendered system of religious governance

Medieval English Conveyances J. M. Kaye, 2009-10-01 This study of the documents used in medieval England for the creation and transfer of interests in real property is the first book devoted exclusively to the subject since the publication of Thomas Madox s *Formulare Anglicanum* in 1702 The transactions covered include grants in fee and in perpetual alms leases for life and for years exchanges surrenders and releases Analysis of each kind of transaction is partly by way of commentary on the formulae of deeds selected from the many thousands found in published cartularies and collections and partly by relating the deeds to the relevant law of their periods as found in early treatises decided cases and the Year Books The aim is to enable readers to identify and categorise deeds accurately to appreciate their legal effects and to note instances where the practice of conveyancers and their clients differed from what is supposed to have been the law
