profiles the most important American mountaineers including such figures as John C. Frmont, John Muir, Annie Peck, Bradford Washburn, Charlie Houston, and Bob Bates, relating their exploits both at home and abroad. Isserman traces the evolving social, cultural, and political roles mountains played in shaping the country. He describes how American mountaineers forged a brotherhood of the rope modeled on America's unique democratic self-image that characterized climbing in the years leading up to and immediately following World War II. And he underscores the impact of the postwar rucksack revolution, including the advances in technique and style made by pioneering dirtbag rock climbers. A magnificent, deeply researched history.

Continental Divide tells a story of adventure and aspiration in the high peaks that makes a vivid case for the importance of mountains to American national identity. **Crown Jewel Wilderness** Lauren Danner, 2021-06-18. Remote, rugged, and spectacularly majestic, with stunning alpine meadows and jagged peaks that soar beyond ten thousand feet, North Cascades National Park is one of the Pacific Northwest's crown jewels. Now, in the first full-length account, Lauren Danner chronicles its creation, just in time for the park's fiftieth anniversary in 2018. The North Cascades range benefited from geographic isolation that shielded its mountains from extensive resource extraction and development. Efforts to establish a park began as early as 1892 but gained traction after World War II as economic affluence sparked national interest in wilderness preservation and growing concerns about the impact of harvesting timber to meet escalating postwar housing demands. As the environmental movement matured in the 1950s, Glacier Peak study mobilized conservationists to seek establishment of a national park that prioritized wilderness. Concerned about the National Park Service's policy favoring development for tourism and the United States Forest Service's policy promoting logging in the national forests, conservationists leveraged a changing political environment and the evolving environmental values of the natural resource agencies to achieve the goal of permanent wilderness protection. Their grassroots activism became increasingly sophisticated, eventually leading to the compromise that resulted in the 1968 creation of Washington's magnificent third national park.

Range of Glaciers Fred Beckey, 2003. The voices, most of them from first-person narratives, range from wonder at the magnificence of the terrain through frustration with the rigors of its harsh conditions to the often humorous and sometimes tragic anecdotes of daily life in what was still mostly unexplored wilderness. **Fifty Favorite Climbs** Mark Kroese, 2001. Author donates 25% of his proceeds from the book to the Access Fund. 50 behind-the-climb stories, 50 profiles of contemporary elite climbers, 50 complete climbing route descriptions, many never published before. Over 100 spectacular full-color photos. **The Stories** Author Mark Kroese gets 50 of the most accomplished climbers of this generation to reveal their all-time favorite climbing routes. Renowned climber Tony Yaniro reveals his personal challenges and controversies as he ascends Scirocco, east face of the Sorcerer at the Needles in California. More inside scoop from Roxanna Brock, Mark Twilight, Jared Ogden, and other great climbers proves a riveting read. **The Climbers**. Each story includes a climber profile garnered from hours of fascinating, thought-provoking, and often downright fun interviews. The climbers share personal anecdotes and offer their views on everything from ethics to style to

training techniques These well crafted profiles give the reader a real sense of today s leading climbers The Routes From Newfoundland to Yosemite Mexico to British Columbia the favorite routes offers excellent climbing stunning views wild exposure or spectacular summits Each one includes a summary description of the approach the route itself and the descent along with first ascent information ratings time required recommended equipment best season special considerations and references **Bulletin** ,1996 **Northwest Trails** Ira Spring,Harvey Manning,1982
