A French Song Companion Graham Johnson,Richard Stokes,2002 The French Song Companion is the most comprehensive book of French music in any language The great accompanist Graham Johnson a noted authority of song provides repertoire guides to the work of some 150 composers the majority of them from France but including British American German Spanish and Italian musicians who have written French vocal music There are major articles on such figures as Faur Duparc Debussy Ravel and Poulenc substantial articles on Bizet Chabrier Gounod Chausson Hahn and Satie and reassessments of such composers as Massenet Koechlin and Leguerney A host of less celebrated figures who have contributed to the genre take their place in a book which is both informative and entertaining The biographical articles are supplemented by the song translations of Richard Stokes some 700 in all and a veritable treasury of great French poetry from the fifteenth to the twentieth centuries These stand in their own right as indispensable to music lovers concert goers and professional singers and their accompanists This is a book which not only reflects the repertoire as found in today s concert halls but also encourages performers and armchair enthusiasts to explore the neglected highways and byways of an endlessly fascinating and highly civilised body of music
