## Case Photographic History:

**Case Photographic History** April Halberstadt, 1995      *Photography, History, Difference* Tanya Sheehan, 2014-12-02

Over the past decade historical studies of photography have embraced a variety of cultural and disciplinary approaches to the medium while shedding light on non Western vernacular and other photographic practices outside the Euro American canon Photography History Difference brings together an international group of scholars to reflect on contemporary efforts to take a different approach to photography and its histories What are the benefits and challenges of writing a consolidated global history of photography How do they compare with those of producing more circumscribed regional or thematic histories In what ways does the recent emphasis on geographic and national specificity encourage or exclude attention to other forms of difference such as race class gender and sexuality Do studies of other photographs ultimately necessitate the adoption of nontraditional methodologies or are there contexts in which such differentiation can be intellectually unproductive and politically suspect The contributors to the volume explore these and other questions through historical case studies interpretive surveys of recent historiography criticism and museum practices and creative proposals to rethink the connections between photography history and difference A thought provoking collection of essays that represents new ways of thinking about photography and its histories It will appeal to a broad readership among those interested in art history visual culture media studies and social history      Business Case Austin Public Library, University of Texas at Austin.
