Lu,2003-12 There is a mistaken assumption in many social sciences that knowledge will automatically translate into action Based on this assumption textbooks for basic oral communication a required course in many college campuses attempt to ameliorate students communicational behaviors by teaching them knowledge about communication theories concepts and terms Not only failing their attempt these textbooks also estrange students by belaboring what is common sense in students perception However in reality numerous social problems are not because of a lack of knowledge but because of a lack of action or a lack of practice of the knowledge In an effort to shift attention from knowing communication to doing communication *Cases of Problematic Communication* confronts its readers with realistic cases of problematic communication and offers questions to facilitate your reflection and communicational action Promising to transform the students learning from one of passive cognition to one of reflective action this booklet can also serve as a resource for commercial textbooks for oral communication **Landmark Cases in Succession Law** Brian Sloan,2019-10-31 The Landmark Cases series

Examining the process of abolition on the island of Pemba off the East African coast in the late nineteenth and early twentieth centuries this book demonstrates the links between emancipation and the redefinition of honour among all classes of people on the island By examining the social vulnerability of ex slaves and the former slave owning elite caused by the abolition order of 1897 this study argues that moments of resistance on Pemba reflected an effort to mitigate vulnerability rather than resist the hegemonic power of elites or the colonial state As the meaning of the Swahili word heshima shifted from honour to respectability individuals reputations came under scrutiny and the Islamic kadhi and colonial courts became an integral location for interrogating reputations in the community This study illustrates the ways in which former slaves used piety reputation gossip education kinship and witchcraft to negotiate the gap between emancipation and local notions of belonging
