Resources in Education ,1980 **Sexual Violence and Restorative Justice** Marie Keenan,Estelle Zinsstag,2022-11-03
Concerned by the high attrition rates for sexual crime and the secondary victimization experienced by victims during their participation in the criminal justice system this book analyses the extent to which restorative justice can address the justice gap that exists in current justice provision Building on clinical experience and earlier research on sexual crime the authors engage with the complex dynamics and traumatic impact of sexual crime as a critical starting point for their research and examine whether restorative justice can contribute to a more enhanced justice response The book presents extensive new data on restorative justice as applied in sexual violence cases across the globe It engages with feminist concerns regarding the traumatic impact of sexual violence and the potential for re traumatisation the power imbalances that characterise these offences and the potential for re victimisation the potential for coercion of the victim to participate in the process the potential for manipulation of restorative justice by the offender and the potential that restorative justice could lead to the reprivatisation of sexual crime and ultimately to its decriminalisation Having examined these topics in detail the book concludes there is an important role for restorative justice in addressing the justice gap that exists after sexual crime and offers guidance on how this can be achieved **Effective Justice Strategies in Wisconsin** ,2012 **Criminal Justice Newsletter** ,1979 **The Changing Face of Crime and Criminal Policy in Europe** Roger Hood,Nestör E.
