Sprankling, 2014-05-01 Does a right to property exist under international law The traditional answer to this question is no a right to property can only arise under the domestic law of a particular nation But the view that property rights are exclusively governed by national law is obsolete Identifiable areas of property law have emerged at the international level and the foundation is now arguably being laid for a comprehensive international regime This book provides a detailed investigation into this developing international property law It demonstrates how the evolution of international property law has been influenced by major economic political and technological changes the embrace of private property by former socialist states after the end of the Cold War the globalization of trade the birth of new technologies capable of exploiting the global commons the rise of digital property and the increasing recognition of the human right to property The first part of the book analyzes how international law impacts rights in specific types of property In some situations international law creates property rights such as rights in aboriginal lands deep seabed minerals and satellite orbits In other areas it harmonizes property rights that arise at the national level such as rights in intellectual property rights in foreign investments and security interests in personal property Finally it restricts property rights that may be recognized at the national level such as rights in celestial bodies contraband and slaves The second part of the book explores the thesis that a global right to property should be recognized as a general matter not merely as a moral precept but rather as an entitlement that all nations must honour It establishes the components of such a right arguing that the right to property at the international level should be seen in the context of five key

components of ownership acquisition use destruction exclusion and transfer This highly innovative book makes an important contribution to how we conceptualize the protection of property and to the understanding that much of this protection now takes place at the international level *Cases, Materials, and Problems on General Practice Insurance Law* Kenneth H.
