Caroline And The Rebels:

A History of Canada Sir Charles G. D. Roberts, 1897 **A History of Canada** Francis Murphy, 1897 Encyclopedia of American Recessions and Depressions Daniel Leab, 2014-01-15 A riveting look at the financial cycles in American economic history from colonial times to the present day with an eye on the similarities and differences between past and present conditions as analyzed by leading economic historians The United States has emerged from the financial chaos of its last economic crisis yet still very few sources place the events of the modern era within the context of financial downturns of the past An examination of the trends and patterns of previous depressions and recessions may allow us to recognize and avoid the behaviors and practices that prolonged the fiscal problems of previous generations This thought provoking encyclopedia presents an overview of notable economic events their causes and cures and their social and political impact on the nation Encyclopedia of American Recessions and Depressions offers a comprehensive survey on the topic from the years 1783 to 1789 under the Articles of Confederation through the panics of the 19th century and the Great Depression of the 1930s to the Great Recession of 2008 Written in an accessible engaging style the volumes contain 14 detailed essays covering each economic event and 140 entries covering various related individuals issues court cases legislation and significant events Primary source documents including the Specie Circular the Embargo Act and the National Labor Relations Act provide relevancy to the real world and a context for key events

The Other Enlightenment Carla Hesse, 2018-06-05 The French Revolution created a new cultural world that freed women from the constraints of corporate privilege aristocratic salons and patriarchal censorship even though it failed to grant them legal equality Women burst into print in unprecedented numbers and became active participants in the great political ethical and aesthetic debates that gave birth to our understanding of the individual as a self creating self determining agent Carla Hesse tells this story delivering a capacious history of how French women have used writing to create themselves as modern individuals Beginning with the marketplace fishwives and salon hostesses whose eloquence shaped French culture low and high and leading us through the accomplishments of Simone de Beauvoir Hesse shows what it meant to make an independent intellectual life as a woman in France She offers exquisitely constructed portraits of the work and mental lives of many fascinating women including both well known novelists and now obscure pamphleteers who put pen to paper during and after the Revolution We learn how they negotiated control over their work and authorial identity whether choosing pseudonyms like Georges Sand or forsaking profits to sign their own names We encounter the extraordinary Louise de Kralio Robert a critically admired historian who re created herself as a revolutionary novelist We meet aristocratic women whose literary criticism subjected them to slander as well as writers whose rhetoric cost them not only reputation but marriage citizenship and even their heads Crucially their stories reveal how the unequal terms on which women entered the modern era shaped how they wrote and thought Though women writers and thinkers championed the full range of political and social positions from royalist to Jacobin from ultraconservative to fully feminist

they shared common moral perspectives and representational strategies Unlike the Enlightenment of their male peers theirs was more skeptical than idealist more situationalist than universalist And this alternative project lies at the very heart of modern French letters
