Beatrice's Last Smile Mark Gregory Pegg, 2023-08-27 Beatrice's Last Smile is a sweeping narrative history of the medieval west from the beginning of the third century to the beginning of the sixteenth This book focuses on slow formation of Latin Christendom over a millennium in the aftermath of the disintegration of the western Roman Empire Beatrice's Last Smile is a sweeping narrative history of the medieval west from the beginning of the third century to the beginning of the sixteenth The reader travels from the Mediterranean to the North Sea from the Nile to the Volga from north Africa to the central Asia until finally ending in the Americas Through a focus on slow formation of Latin Christendom over a millennium in the aftermath of the disintegration of the western Roman Empire Beatrice's Last Smile is a history of holiness which includes

Judaism and the revelations of Muhammad The narrative moves from the violence within fifth century Britain and Gaul to the Hundred Years War between England and France from the plague of the sixth century to the Black Death of the fourteenth from the first crusaders sacking Jerusalem to the Spanish capturing Tenochtitlan from Viking raids to Mongol invasions from the inquisitors into heresy to the trials of witches from a third century Christian mother dying in a Roman arena to the immolation of Joan of Arc in the fifteenth from an ancient universe without heaven and hell to a medieval cosmos with a fiery inferno and a shimmering paradise Over these centuries there is an emphasis on individual men and women and their stories woven together with the story of the emergence of a distinctive western culture *Charlemagne's Mustache* P.

Dutton,2016-04-30 *Charlemagne's Mustache* presents the reader with seven engaging studies thick descriptions of cultural life and thought in the Carolingian world The author begins by asking questions Why did Charlemagne have a mustache and why did hair matter Why did the king own peacocks and other exotic animals Why was he writing in bed and could he write at all How did medieval kings become stars How were secrets kept and conveyed in the early Middle Ages And why did early medieval peoples believe in storm and hailmakers The answers he found are often surprising **Making of the West,**

Volume I: To 1750 Lynn Hunt,Thomas R. Martin,Barbara H. Rosenwein,Bonnie G. Smith,2012-02-01 Students of Western civilization need more than facts They need to understand the cross cultural global exchanges that shaped Western history to be able to draw connections between the social cultural political economic and intellectual happenings in a given era and to see the West not as a fixed region but a living evolving construct These needs have long been central to *The Making of the West* The book's chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context enabling students to witness the unfolding of Western history understand change over time and recognize fundamental relationships *Carolingian Connections* Joanna Story,2003

The Anglo Saxon influence on the Carolingian world has long been recognised by historians of the early medieval period Wilhelm Levison in particular has drawn attention to the importance of the Anglo Saxon contribution to the cultural and ecclesiastical development of Carolingian Francia in the central decades of the eighth century What is much less familiar is the reverse process by which Francia and Carolingian concepts came to influence contemporary Anglo Saxon culture In this book Dr Story offers a major contribution to the subject of medieval cultural exchanges focusing on the degree to which Frankish ideas and concepts were adopted by Anglo Saxon rulers Furthermore by concentrating on the secular context and concepts of secular government as opposed to the more familiar ecclesiastical and missionary focus of Levison's work this book offers a counterweight to the prevailing scholarship providing a much more balanced overview of the subject Through this reassessment based on a close analysis of contemporary manuscripts particularly the Northumbrian sources Dr Story offers a fresh insight into the world of early medieval Europe *The Legend of Charlemagne in the Middle Ages* Matthew

Gabriele,Jace Stuckey,2008-09-15 These essays take advantage of a new exciting trend towards interdisciplinary research on

the Charlemagne legend Written by historians art historians and literary scholars these essays focus on the multifaceted ways the Charlemagne legend functioned in the Middle Ages and how central the shared if nonetheless fictional memory of the great Frankish ruler was to the medieval West A gateway to new research on memory crusading apocalyptic expectation Carolingian historiography and medieval kingship the contributors demonstrate the fuzzy line separating fact and fiction in the Middle Ages [Responsa Contra Claudium](#) Dúngal,2002 [Daily Life in the Age of Charlemagne](#) John J. Therivel,2001 The societal effects of the long term impact of the Division of Power DP or Unity of Power UP are discussed in this volume The DP chapters compare the three Griselda stories The GAM chapters specifically refer to the personality families identified in Volume I 2001 and to the creative potential which comes from a high GxAxM of youth The theory presented in these volumes is in two parts The first GAM identifies and illustrates the three factors Genetic endowment Assurances and Misfortunes which contribute to personality and creativity at the individual level The second DP Division of Power does the same at the societal level **A Companion to Middle High German Literature to the 14th Century** Francis G. Gentry,2002 This volume is a guide to medieval German literature from its beginnings in the eighth century to the fourteenth century It will escort the motivated student and colleague with interest in the European Middle Ages but no expertise in older German languages The chapter authors all internationally known scholars were given the freedom to arrange their chapters as they felt most appropriate including the question of the terminus ad quem Chapters deal either with a chronological period e g 13th century or with specific genres eg drama In addition chapters both on the historical epoch and on the development of the German language in the medieval period have

been included In general historical and cultural topics play an important role in each chapter

Texts and Identities in the Early Middle Ages Richard Corradini, 2006 For seven years a collaboration between the Institute for Medieval Studies of the Austrian Academy of Sciences and the Universities of Utrecht Cambridge Leeds and Paris I Sorbonne provided the opportunity for young researchers to discuss and coordinate their work The title of the project and of this volume Texts and identities provides the framework for case studies in different fields of early medieval history They include apparently disparate topics such as historiography and hagiography monastic spaces and memories lay and ecclesiastic legislation as well as liturgy and penance Rather than defining a common field of research the meetings from which these papers have emerged derived their coherence from their common methodological framework This approach combines two elements on the one hand emphasis has been laid on the careful analysis of the transmission of texts and of the manuscript evidence on the other research has focused on the problem of identity or rather of processes of identification including the perception of differences between specific social political and religious communities In the combination of these two approaches the extant texts from the early medieval period are not only seen as mere reflections of ethnic social and cultural identities but also as media that gave meaning to social practices and were often intended to inspire guide change or prevent action directly or indirectly The written texts that have been transmitted to us can be seen as part of a cultural effort to shape the present by means of restructuring the past The often discordant voices of medieval authors allow modern historians to grasp something of the multiplicity of the early medieval world and of the disagreements conflicts idiosyncrasies and individual perceptions among the people who lived in that period Many contributions in this volume propose specific methods for studying changing identities They analyse differences between similar texts over time or specifically changes in texts in the course of their transmission The papers collected in this volume illustrate that texts were integral parts of a world in transformation
