Digitization is the animating force of everyday life Rather than defining it as a technology or a medium *Contemporary Art and the Digitization of Everyday Life* argues that digitization is a socio historical process that is contributing to the erosion of democracy and an increase in political inequality specifically along racial ethnic and gender lines Taking a historical approach Janet Kraynak finds that the seeds of these developments are paradoxically related to the ideology of digital

utopianism that emerged in the late 1960s with the rise of a social model of computing a set of beliefs furthered by the neo liberal tech ideology in the 1990s and the popularization of networked computing The result of this ongoing cultural worldview which dovetails with the principles of progressive artistic strategies of the past is a critical blindness in art historical discourse that ultimately compromises art s historically important role in furthering radical democratic aims

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
