## **Cartel El:**

**The Cartels** George W. Grayson Professor Emeritus, 2013-11-26 An up to date examination of Mexico's version of the War on Drugs that exposes the evolution of major cartels and their corruption of politicians law enforcement agencies and the Army What can President Enrique Pe a Nieto do to curb the narcotics induced mayhem in Mexico and what would be the consequences to the United States if he fails This book analyzes Mexico's transition from a relatively peaceful kleptocracy controlled by the Tammany Hall style Institutional Revolutionary Party PRI 1929 2000 to a country plagued by rural and urban enclaves of grotesque violence The author examines the major drug cartels and their success in infiltrating American and Mexican businesses details the response from the Obama administration assesses the threat that the continuing bloodshed represents for the United States and emphasizes the constraints on America's ability to solve Mexico's crisis despite U S contributions of intelligence military equipment training and diplomatic support [El Narco](#) Ioan Grillo, 2012-11-13 Looks at the extremely violent criminal drug cartels that have arisen in Mexico maintaining that the phenomenon has in fact turned into a broad based insurgency in support of drug traffic profits **Mexico** George W. Grayson, 2011-12-31 Mexico was named an Outstanding Academic Title of 2010 by Choice Magazine Bloodshed connected with Mexican drug cartels how they emerged and their impact on the United States is the subject of this frightening book Savage narcotics related decapitations castrations and other murders have destroyed tourism in many Mexican communities and such savagery is now cascading across the border into the United States Grayson explores how this spiral of violence emerged in Mexico its impact on the country and its northern neighbor and the prospects for managing it Mexico's Institutional Revolutionary Party PRI ruled in Tammany Hall fashion for seventy nine years before losing the presidency in 2000 to the center right National Action Party PAN Grayson focuses on drug wars prohibition corruption and other antecedents that occurred during the PRI's hegemony He illuminates the diaspora of drug cartels and their fragmentation analyzes the emergence of new gangs sets forth President Felipe Calder n's strategy against vicious criminal organizations and assesses its relative success Grayson reviews the effect of narcotics focused issues in U S Mexican relations He considers the possibility that Mexico may become a failed state as feared by opinion leaders even as it pursues an aggressive but thus far unsuccessful crusade against the importation processing and sale of illegal substances Becoming a failed state involves two dimensions of state power its scope or the different functions and goals taken on by governments and its strength or the government's ability to plan and execute policies The Mexican state boasts an extensive scope evidenced by its monopoly over the petroleum industry its role as the major supplier of electricity its financing of public education its numerous retirement and health care programs its control of public universities and its dominance over the armed forces The state has not yet taken control of drug trafficking and its strength is steadily diminishing This explosive book is thus a study of drug cartels but also state disintegration **Learn Spanish with Narcos Series** Lexicon Leap, 2025-02-24 Learn Spanish with

*Fragile States in the Americas* Hanna Samir Kassab, Jonathan D. Rosen, 2016-12-07 The Americas face many security challenges including drug trafficking organized crime guerrilla movements terrorism and environmental challenges Experts have long debated whether some countries in the region can be classified as failed states While various states in the Americas have been labeled as failed states calling a country a failed state is quite controversial and requires a precise definition of what constitutes a failed state This book instead discusses fragile states in the Americas Fragile states are weak states that are fertile grounds for organized crime groups and illegal actors as such groups are able to infiltrate the state apparatus through corruption The goal of this book is to examine fragile states in the region and the major security challenges that these states face The cause

of state fragility is different for various states Theoretically the work will conceptualize the meaning of fragility as it relates to state survival and autonomy Empirically the book focuses on contemporary threats to the survival of fragile states in the Americas The book explains and analyzes the main political security and economic challenges of these states It employs a wide array of cases that delve into the security and economic threats and priorities of states in the Americas
