places Her one true friend is a sanguine seventy seven year old wood carver Alejandro Jaramillo Alejandro has been carving angels ever since he was summoned to do so at the age of ten These two unlikely friends share one thing a sense of having been called to something that lifts them towards an experience of the sacred But when Octavia is involved in a life threatening accident and Alejandro begins to have dreams in which thousands of angels fall away from him into a bottomless abyss they are both forced to question everything they have come to assume about themselves and their place in the world So begins a voyage of discovery on which silence and dark music new love and ancient landscapes will test their resolve to inhabit their own inimitable lives In prose that is both refreshingly muscular and hauntingly lyrical Grenfell Fairhead invites us to examine what it means to grow up and truly belong but also even more crucially what it could mean to grow down into one's own center learning the slow fierce discipline of paying attention to each fleeting moment *The Architectural Review*, 1905

The Angel Roofs of East Anglia Michael Rimmer, 2015-08-27 Shortlisted for the East Anglian Book Awards 2016 It has been estimated that over 90% of England's figurative medieval art was obliterated in the image destruction of the Reformation Medieval angel roofs timber structures with spectacular and ornate carvings of angels with a peculiar preponderance in East Anglia were simply too difficult for Reformation iconoclasts to reach Angel roof carvings comprise the largest surviving body of major English medieval wood sculpture Though they are both masterpieces of sculpture and engineering angel roofs have been almost completely neglected by academics and art historians because they are inaccessible fixed and challenging to photograph The Angel Roofs of East Anglia is the first detailed historical and photographic study of the region's many medieval angel roofs It shows the artistry and architecture of these inaccessible and little studied medieval artworks in more detail and clarity than ever before and explains how they were made by whom and

why Michael Rimmer redresses the scholarly neglect and brings the beauty craftsmanship and history of these astonishing medieval creations to the reader The book also offers a fascinating new answer to the question of why angel roofs are so overwhelmingly an East Anglian phenomenon but relatively rare elsewhere in the country
