National Archives and Records Administration,1987 Inventory of Federal Archives in the States ,1941 **The Defence of 'Obedience to Superior Orders' in International Law** Yoram Dinstein,2012-10-25 The first comprehensive monograph on the defence of superior orders after the second world war which remains pre eminent in the field the republication of this highly sophisticated work once again makes this book available to scholars and students in the field First published in 1965 Yoram Dinstein set the standard for future analysis of this issue providing a ground breaking interpretation that integrated domestic and international law to provide a subtle and nuanced challenge to the countervailing perceptions of the time shaped as they were by the Nuremburg and Eichmann trials The recent jurisprudence of the ad hoc Tribunals has shown remarkably similar analyses to those offered by Dinstein in this book demonstrating that this key work remains relevant today Reviewing the relevant precedents that existed at the time this book shows that superior orders were not in and of themselves a defence but that orders were relevant to other defences and therefore should not be entirely ignored Assessing the issue on a conceptual and practical level and offering an extraordinary level of detail this is a is a seminal work in international criminal law It makes required reading for scholars students and practitioners of international criminal law **Inventory of Federal Archives in the States: Georgia** Historical Records Survey (U.S.),1940 **The National Cyclopaedia of American Biography ...
