Case For A Creator:

The Case for a Creator Lee Strobel, 2009-05-18 Discover the astonishing evidence for intelligent design in this New York Times bestselling book by award winning journalist Lee Strobel My road to atheism was paved by science but ironically so was my later journey to God Strobel says During his academic years Lee Strobel became convinced that God was obsolete a belief that colored his journalism career Science had made the idea of a Creator irrelevant or so Strobel thought But today science points in a different direction A diverse and impressive body of research has increasingly supported the conclusion that the universe was intelligently designed At the same time Darwinism has faltered in the face of concrete facts and hard reason Has science discovered God At the very least it s giving faith an immense boost as new findings emerge about the incredible complexity of our universe Join Strobel as he reexamines the theories that once led him away from God Through his compelling and highly readable account you ll encounter the mind stretching discoveries from cosmology cellular biology DNA research astronomy physics and human consciousness that present compelling evidence in *The Case for a Creator* Also available *The Case for a Creator* small group video study and study guide Spanish edition kids edition student edition and more *The Case for a Creator Student Edition* Lee Strobel, 2010-12-21 In *The Case for a Creator Student Edition* best selling author and former atheist Lee Strobel and popular writer Jane Vogel take younger readers on a remarkable investigation into the origin of the universe interviewing many of the world s most renown scientists and following the evidence wherever it leads Their findings presented in the third blockbuster Case book student edition offer the most compelling scientific proof ever for intelligent design Perfect for youth groups and young people eager to rebut the Darwinian and naturalistic views taught so commonly in schools **The Case for a Creator** Lee Strobel, 2004 Recent findings from the fields of astronomy cosmology biology and biochemistry that provide convincing evidence for God Like many people Lee Strobel traces his atheism to high school when he was taught that Darwinism explained the origin and development of life He assumed there was no room for God in a modern scientific mind But now Strobel has discovered that the emperor of evolution has no clothes As in his first two books both multi million sellers *The Case for Christ* and *The Case for Faith* Strobel assumes the role of skeptic in *The Case for a Creator* and uses a narrative technique to investigate the latest scientific findings concerning creation What he has found is that there has never been a time in history when the hard evidence of science was more confirmatory of belief in God than it is today Instead of science and religion being at odds many scientists are now driven to faith by their very work It is the atheist who has to maintain by faith despite all the evidence to the contrary that the universe did not have a beginning a finite time ago *The Case for a Creator* provides an ironclad apologetic affirming the Christian belief in God as Creator Yet it is written in an open accessible style that invites skeptics and seekers to take another look at the evidence for God This title is also available as unabridged Audio Pages CD *The Case for a Creator for Kids* Lee Strobel, Rob Suggs, 2006 Did God create the universe Or was there a big bang Author

science isn't the enemy of faith but that it provides a solid foundation for belief in God. New scientific discoveries point to the incredible complexity of our universe, a complexity best explained by the existence of a Creator. This six-session video study DVD, digital video sold separately, invites participants to encounter the evidence of a Creator. Join Strobel in reexamining the theories that once led him away from God. Pastors, small group leaders, and individuals seeking resources that answer tough questions about the existence of God and the claims of rationality will find compelling answers in *The Case for a Creator*, a study investigating probing questions like: Where do science and faith overlap or agree? As a form of knowledge, what are the weaknesses of science and rationality? How much can I depend on science while still have a thriving faith? Is faith in God ever based on rationality? Sessions include: Science and God, Doubts about Darwinism, The Evidence of Cosmology, The Fine-tuning of the Universe, The Evidence of Biochemistry, The DNA and the Origin of Life. Designed for use with the *Case for a Creator Revised Video Study* 9780310699606, sold separately. **Case for Christ Student Edition MM - Outreach** Zondervan Publishing, Zondervan Staff, 2006-08. There's a little question that he actually lived. But miracles? Rising from the dead? Some of the stories you hear about him sound like just that: stories. A reasonable person would never believe them, let alone the claim that he's the only way to God. But a reasonable person would also make sure that he or she understood the facts before jumping to conclusions. That's why Lee Strobel, an award-winning legal journalist with a knack for asking tough questions, decided to investigate Jesus for himself. An atheist, Strobel felt certain his findings would bring Christianity's claims about Jesus tumbling down like a house of cards. He was in for the surprise of his life. Join him as he retraces his journey from skepticism to faith. You'll consult expert testimony as you sift through the truths that history, science, psychiatry, literature, and religion reveal. Like Strobel, you'll be amazed at the evidence, how much there is, how strong it is, and what it says. The facts are in. What will your verdict be in *The Case for Christ*? **Case for Faith HC MM - FCS** Zondervan Staff, 2006-07. Using the dramatic scenario of an investigative journalist pursuing his story, and leads Strobel uses his experience as a reporter for the *Chicago Times* to interview experts about the evidence for Christ from the fields of science, philosophy, and history. **The Case for a Creator** Lee Strobel, Garry Poole, 2008-09-01. In the small group Bible study DVD *The Case for a Creator: A Six-session Investigation of the Scientific Evidence That Points Toward God*, Lee Strobel investigates scientific discoveries and explores how they form a solid basis for belief in God. Former journalist and skeptic, Lee Strobel has discovered something very interesting about science. Far from being the enemy of faith, science provides a solid foundation for believing in God, as ongoing discoveries point to the incredible complexity of our universe, a complexity best explained by the existence of a Creator. So has science finally discovered God? Certainly, new discoveries in such scientific disciplines as cosmology, cellular biology, astronomy, physics, and DNA research point to the incredible intricacy of our universe, a complexity best explained by the existence of a Creator. In it, weighty and complex evidence is delivered in a compelling conversational style. This DVD features six 10-15 minute live teaching sessions and interviews from Lee Strobel.
