Australia Through American Eyes 1935 1945:

Australia Through American Eyes, 1935-1945 P. G. Edwards, 1979 [Australia's Boldest Experiment](#) Stuart Macintyre, 2015-06-01 In this landmark book Stuart Macintyre explains how a country traumatised by World War I hammered by the Depression and overstretched by World War II became a prosperous successful and growing society by the 1950s An extraordinary group of individuals notably John Curtin Ben Chifley Nugget Coombs John Dedman and Robert Menzies re made the country planning its reconstruction against a background of wartime sacrifice and austerity The other part of this triumphant story shows Australia on the world stage seeking to fashion a new world order that would bring peace and prosperity This book shows the 1940s to be a pivotal decade in Australia At the height of his powers Macintyre reminds us that key components of the society we take for granted work welfare health education immigration housing are not the result of military endeavour but policy planning politics and popular resolve **Inventing Australia** Richard White, 2020-07-28

White sets himself a most ambitious task and he goes remarkably far to achieving his goals Very few books tell so much about Australia with elegance and concision as does his Professor Michael Roe Stimulating and informative an antidote to the cultural cringe Canberra Times To be Australian what can that mean Inventing Australia sets out to find the answers by tracing the images we have used to describe our land and our people the convict hell the workingman s paradise the Bush legend the typical Australian from the shearer to the Bondi lifesaver the land of opportunity the small rich industrial country the multicultural society The book argues that these images rather than describing an especially Australian reality grow out of assumptions about nature race class democracy sex and empire and are invented to serve the interests of particular groups There have been many books about Australia s national identity this is the first to place the discussion within an historical context to explain how Australians views of themselves change and why these views change in the way they do

A Military History of Australia Jeffrey Grey, 1999-06-28 This book represents an expanded edition of one of the most acclaimed overviews of Australian military history available A Military History of Australia covers the major theatres of war in which Australia was engaged from Gallipoli to the Gulf War with particular attention to the Second World War and the war in the Pacific Yet the author extends the story back to the Australian colonies when the military were not only sent overseas to assist Britain in colonial wars but when armed conflict took place on Australian soil between indigenous Australians and the European settlers In addition the book discusses the evolution of defence policy in peace and war and the impact of war and the military on civilian society It maps the development of the Australian armed forces as institutions and the relationship of military policy to civil government The author considers the role war played in the development of Australian society and the Australian ethos *Shaping Nations* Linda Cardinal, David John Headon, 2002 As questions concerning nationhood and national identity continue to preoccupy both Canada and Australia Shaping Nations brings together the work of Australian and Canadian scholars around five core themes constitutionalism colonialism republicanisim national identity
