Australian And Us Military Cooperation Fighting Common Enemies:

Australian and US Military Cooperation Christopher Hubbard, 2017-11-30 Australia and the United States have found themselves fighting common enemies on the battlefields of the world for over half a century Australian ground forces have repeatedly stood shoulder to shoulder with American troops in conflicts from Korea and Vietnam to Afghanistan and now in the 2003 Iraq war This study looks closely at the key factors which for over fifty years have shaped interpreted and applied the aims and aspirations of this mutual defence agreement to the real world of shifting threats changing strategic balances and the democratic uncertainties of domestic politics A departure from the current literature the ANZUS alliance now updated to take account of the new post 11 September 2001 realities is presented as an accessible and concise survey of this often neglected but increasingly important trans Pacific link between the American giant and its durable Australian ally Suitable as supplementary reading at the 3rd year undergraduate and postgraduate levels of courses studying international relations generally but also useful for those engaged with elements of global and regional security and strategic defence analysis

Asia, the US and Extended Nuclear Deterrence Andrew O'Neil, 2013-09-02 Since the end of the Cold War significant attention has focussed on the issue of nuclear deterrence and in particular whether formal nuclear security guarantees from nuclear weapons states to non nuclear weapons states involving the possible use of nuclear weapons have a place in the twenty first century global strategic landscape Growing support for nuclear disarmament in the US and elsewhere has seen serious doubts being raised about the ongoing utility of extended nuclear deterrence This book provides the first detailed analysis of the way in which extended nuclear deterrence operates in contemporary Asia It addresses the following key questions What does the role of extended nuclear deterrence in Asia tell us about the broader role of extended nuclear deterrence in the contemporary international system Is this role likely to change significantly in the years ahead O Neil uses a theoretical and historical framework to analyse the contemporary and future dynamics of extended nuclear deterrence in Asia and challenges many of the existing orthodox perspectives on the topic Providing a new perspective on debates surrounding extended nuclear deterrence this book will be of interest not only to students and scholars of Asian politics international relations and security studies but also to policy makers and professionals

Military History Supremo Joan Beaumont, Garth Pratten, 2025-06-12 Professor Emeritus David Horner AM FASSA is one of Australia's greatest military historians and its fifth official historian of war and military operations Few who undertake research in the field can do so without consulting his prodigious authoritative and definitive publications Serving for 25 years in the Australian Army before joining The Australian National University Horner is the epitome of the soldier scholar and has played a key role in establishing military history as an academic discipline in Australia This volume honours Horner's long career of service to history and the nation Authors pay tribute to Horner's legacy by engaging with his scholarship applying his conclusions to new case studies and contexts reflecting and expanding on the subjects he addressed and the methodologies he employed

and pushing the boundaries of the discipline he was instrumental in founding The breadth of Horner's research is demonstrated by the subjects and themes they address including strategic planning and policy command multinational operations intelligence and defence policy Military History Supremo both underscores Horner's contribution to Australia's military and intelligence history and highlights the vibrancy and relevance of the field today

The Other Special Relationship Jeffrey D. McCausland, 2007 This volume summarizes the major findings of the conference participants over the last year Beyond the thematic resemblance between this volume and the previous study of U S UK relations another similarity is the importance of two events in determining London and Canberra's relations with Washington The terrorist attacks of September 11 2001 9 11 represent the first turning point The British and Australian governments reacted similarly to these attacks immediately identifying 9 11 as a transformative moment in international relations But the Australian Prime Minister's presence in Washington DC during the 9 11 terrorist attacks intensified the personal impact of the events and within a few days his government had invoked the ANZUS Treaty to offer its full support to the United States The second big event dominating both U S UK relations and U S Australia relations has been America's management of the Global War on Terror and in particular its leadership of the ongoing operations in Afghanistan and Iraq

International Development Law Petra Minnerop, Rüdiger Wolfrum, Frauke Lachenmann, Max-Planck-Gesellschaft zur Förderung der Wissenschaften, 2019 This volume brings together articles on international development law from the Max Planck Encyclopedia of Public International Law the definitive reference work on international law It provides an invaluable resource for scholars students and practitioners of international development law giving an accessible thorough overview of all aspects of the field Each article contains cross references to related articles and includes a carefully selected bibliography of the most important writings and primary materials as a guide to further reading The Encyclopedia can be used by a wide range of readers Experienced scholars and practitioners will find a wealth of information on areas that they do not already know well as well as in depth treatments on every aspect of their specialist topics Articles can also be set as readings for students on taught courses
