Le Corbusier in the Antipodes Antony Moulis, 2020-12-30 This book considers the architect Le Corbusier s encounters with Australia and New Zealand as a two way exchange showing the impact of his ideas and projects on architects of the region whilst also revealing counterinfluences on Le Corbusier in his post war career that were activated by his contacts Compiled from detailed archival research undertaken at the Fondation Le Corbusier Paris and nationally based archives *Le Corbusier in the Antipodes* brings together a set of episodes placing them in context with the history of modern art architecture and urbanism in 20th century Australia and New Zealand Key exchanges between Le Corbusier and others never before described are presented and analyzed including Le Corbusier s contact with Australian architect Harry Seidler at Chandigarh Le Corbusier s drawing of the plan of Adelaide in 1950 and his creative collaboration with Jorn Utzon on art for the Sydney Opera House This book also includes analysis of previously unseen Le Corbusier artworks which formed part of the Utzon family collection In reading these personal and contingent moments of encounter the book puts forward new ways of understanding the dissemination and mediation of Le Corbusier s ideas and their effects in post war Australia and New Zealand These antipodean contacts are set against the broader story of Le Corbusier s career questioning received interpretations of his design methods and current assumptions about the influence of his work in national contexts beyond Europe

150 Geoffrey London, Philip Goad, Conrad Hamann, 2017 Architect designed houses of the period 1950 65 proposed an innovative response to the social economic and climatic conditions of post war Australia At the same time they embraced the aesthetic technological and egalitarian aspirations of modern architecture *An Unfinished Experiment in Living*

traces the emergence of this architectural phenomenon in Australia documenting the full range of its expression from the postwar optimism of the early 1950s through to the affluence of the 1960s It is a catalogue of the most significant houses of the period It includes comprehensive plans and period photographs of 150 houses from around Australia dating from a time when the great Australian dream was the single family house This book puts forward new research founded on the premise that the most significant houses of the 1950s and 60s represent an unfinished and undervalued experiment in modern living Issues such as the open plan the changing nature of the family the embrace of advances in technology the use of the courtyard and the orientation of the house to capture sun and privacy were valuable and critical lessons This is a compelling reminder of their continuing relevance Subject Architecture Design Australian History Sociology **Australia** Harry Margalit,2019-11-15 This book tells the story of the architects and buildings that have defined Australia s architectural culture since the founding of the modern nation through Federation in 1901 That year marked the beginning of a search for better city forms and buildings to accommodate the changing realities of Australian life and to express an emerging distinctive and eventually confident Australian identity While Sydney and Melbourne were the settings for many of the major buildings all states and territories developed architectural traditions based on distinctive histories and climates Harry Margalit explores the flowering of these many architectural variants from the bid to create a model city in Canberra through the stylistic battles that opened a space for modernism to the idealism of postwar reconstruction and beyond to the new millennium Australia reveals a vibrant and influential culture of the built environment at its best when it matches civic idealism with the sensuality of a country of stunning light and landscapes **Modernism & Australia** Ann Stephen,Andrew McNamara,Philip Goad,2006 This first anthology of modernist art design and architecture in Australia reveals the raw nerves that modernism exposed and highlights the role of migrants expatriates travel and mass reproduction in the reception of modernism in Australia In more than two hundred documents talks letters fiery debates public manifestoes and private diaries the main players of the time 1917 67 convey in their own words the tensions aspirations and paradoxes behind the reception of modernism Each document is put in context and accompanied by expert commentaries from the editors The collection overturns many key assumptions about Australian culture revealing not a time lag in reception but an up to date engagement with the latest overseas trends and developments It shows a surprising acceptance of modernism in the commercial realms design fashion interior decoration yet chronicles the dogged institutional resistance that greeted modernism particularly in the fine arts **A Guide to Sources of Information on the Arts in Australia** Ray Choate,1983 Award Winning Australian Architecture Neville Quarry,1997 For each award compact illustrations and the jury report serve as an important source of record and stimulation for anyone interested in understanding and appreciating architecture The commentary essays which introduce each category of the awards set up a potential discourse for airing differences of intretation leading to critical comparisons and proactive debate among architectural observers and participants inside cover
