The Australian Garden Lover ,1930 **The New Outlook** ,1922 **42 Reasons to Hate the Universe** Chris Ferrie,Wade David Fairclough,Byrne LaGinestra,2024-02-06 If you ve always suspected the universe was out to get you you were right Yes the universe we live in is cosmically beautiful and mysterious and all that crap But it s also a bit of an asshole After all remember that you are just a group of atoms structured in a specific way for barely long enough to try to understand this thing we call existence Those atoms could just have easily been used to make the dog shit you re cleaning off your shoe or the mold that grows on your bread The fact is when you zoom out to look at the universe and how it functions you ll see that it s usually not in our favor and many of the laws of physics are actively working against our survival In this book you ll discover why You re an aging mutant Invisible rays are melting our genetic code The Earth is covered in explosive pimples

Literally everything is poisonous And more true and terrifying scientific facts But don t worry While it s true that there are at least forty two grudges to hold against the universe the good news is that there is also one very good reason to forgive them all and embrace the wild improbable fact that we are alive for now and we should take advantage of it while we can 42

Reasons to Hate the Universe And One Reason Not To is a hilarious no holds barred exploration of all the reasons we shouldn t exist but somehow do anyway Rooted in scientific research but written simply so that evolved apes such as ourselves can understand where the heck we came from and where we re likely going this book is for all the nerds and nihilists who know they re going down in the end but want to enjoy the rollercoaster ride of existence on the way
