Pickup,1978 Proceedings of and papers arising out of a seminar held by the North Australia Research Unit of the Australian National University Darwin 11 14 September 1978 **Dental Summary; Australian Edition** ,1920 Industrial & Mining Standard ,1905 **Directory of National Officials Responsible for the Management of Disasters and Other Emergencies, Emergency Plans, and Disaster Legislation** ,1988 *Year Book, Australia* ,1983 Australian Government Publications ,1986 **Australia's Greatest Disasters** John Miller,2010-04 Disasters have always occurred in Australia even before European settlement began in 1788 Such is the geography and climate of the Great South Land that disasters such as bushfires cyclones storms floods drought and heatwaves are natural phenomena They also tend to be seasonal and can be successive bushfires follow periods of drought or heatwave and floods follow cyclones or storms The original inhabitants as well as those who came after the First Fleet have had to learn to live with these and to find ways to overcome the impacts Australia has also occasionally been affected by natural disasters not commonly associated with this part of the world including earthquakes tornadoes and landslides While most do not result in loss of human life or major damage they are significant owing to their rarity People tend to equate disasters with loss of human life and this book includes most of the disasters in Australia that have resulted in loss of life There have been a number with significant loss of life including Cyclone Mahina in 1899 the Ash Wednesday bushfires of 1983 the Gundagai floods of 1852 Cyclone Tracy in 1974 and the Granville bridge collapse in 1977 There have been also many where although fewer lives were lost there was a great damage toll on buildings and property such as the Newcastle earthquake in 1989 the Sydney hail storm of 1999 and the northern Tasmanian floods of 1929 Structural fires are also commonly placed in the disaster category because they are so costly in terms of fatalities injuries and damage Many people however don't include economic or agricultural impact among the criteria for disasters which means drought and heatwaves are often disregarded However these are synonymous with Australia and many have taken a great toll This book is part of Exisle Publishing's Little Red Books series Every title in the Little Red Books series provides an overview of key events people or places in Australian history They cover the essentials bringing the reader up to speed on the most important fascinating or intriguing facts Appealing to everyone from students to pensioners who've always wanted to know a bit about that they're an essential part of every Australian bookshelf
