New Perspectives on Austrians and World War II Fritz Plasser,2017-09-05 For more than a generation after World

War II official government doctrine and many Austrians insisted they had been victims of Nazi aggression in 1938 and therefore bore no responsibility for German war crimes. During the past twenty years this myth has been revised to include a more complex past one with both Austrian perpetrators and victims. Part one describes soldiers from Austria who fought in the German Wehrmacht a history only recently unearthed. Richard Germann covers units and theaters Austrian fought in while Thomas Grischan demonstrates how well they fought. Ela Hornung looks at case studies of denunciation of fellow soldiers while Barbara Stelzl Marx analyzes Austrian soldiers who were active in resistance at the end of the war. Stefan Karner summarizes POW treatment on the Eastern front. Part two deals with the increasingly difficult life on the Austrian homefront. Fritz Keller takes a look at how Vienna survived growing food shortages. Ingrid Böhler takes a rare look at life in small town Austria. Andrea Strutz analyzes narratives of Jewish refugees forced to leave for the United States. Peter Ruggenthaler and Philipp Lesiak examine the use of slave laborers. And Brigitte Kepplinger summarizes the Nazi euthanasia program. The third part deals with legacies of the war particularly postwar restitution and memory issues. Based on new sources from Soviet archives Nikita Petrov describes the Red Army liberation. Winfried Garscha analyzes postwar war crimes trials against Austrians. Brigitte Bailer Galanda and Eva Blimlinger present a survey of postwar restitution of property. And Heidmarie Uhl deals with Austrian memories of the war.

A Concise History of Austria Steven Beller, 2007-01-04. For a small prosperous country in the middle of Europe modern Austria has a very large and complex history extending far beyond its current borders. Today's Austrians have a problematic relationship with that history whether with the multi-national history of the Habsburg Monarchy or with the time between 1938 and 1945 when Austrians were Germans in Hitler's Third Reich. Steven Beller's gripping and comprehensive account traces the remarkable career of Austria through its many transformations from German borderland to dynastic enterprise imperial house Central European great power failed Alpine republic German province and then successful Alpine republic building up a picture of the layers of Austrian identity and heritage and their diverse sources. It is a story full of anomalies and ironies a case study of the other side of European history without the easy answers of more clearly national narratives and hence far more relevant to today's world. Vienna and the Austrians Frances Milton Trollope, 1838. The Ambivalence of Identity Peter Thaler, 2001. The Ambivalence of Identity examines nation building in Austria and uses the Austrian experience to explore the conceptual foundations of nationhood. Traditionally Hapsburg Austria has provided the background for these works. In the course of this study it should become clear that Republican Austria is as valuable in understanding national identity as its monarchic predecessor. Historical interpretations to Austrian nation building gives the Austrian experience special relevance for the larger debate about the nature of history. Such aspects in the analysis of the post-war Austrian nation building are the role of consciousness during the building process the role of neighboring countries and the role of World War II.
