Austrian Expressionism The Formative Years:

Austrian Expressionism Patrick Werkner, 1993 "Textiles, Fashion, and Design Reform in Austria-Hungary Before the First World War" Rebecca Houze, 2017-07-05 Filling a critical gap in Vienna 1900 studies this book offers a new reading of fin de siècle culture in the Austro-Hungarian Monarchy by looking at the unusual and widespread preoccupation with embroidery fabrics clothing and fashion both literally and metaphorically The author resurrects lesser known critics practitioners and curators from obscurity while also discussing the textile interests of better known figures notably Gottfried Semper and Alois Riegl Spanning the 50 year life of the Dual Monarchy this study uncovers new territory in the history of art history insists on the crucial place of women within modernism and broadens the cultural history of Habsburg Central Europe by revealing the complex relationships among art history women and Austria-Hungary Rebecca Houze surveys a wide range of materials from craft and folk art to industrial design and includes overlooked sources from fashion magazines to World's Fair maps from exhibition catalogues to museum lectures from feminist journals to ethnographic collections Restoring women to their place at the intersection of intellectual and artistic debates of the time this book weaves together discourses of the academic scientific and commercial design communities with middle class life as expressed through popular culture

Erasures and Eradications in Modern Viennese Art, Architecture and Design Megan

Brandow-Faller, Laura Morowitz, 2022-09-23 Erasures and Eradications in Modern Viennese Art Architecture and Design challenges the received narrative on the artists exhibitions and interpretations of Viennese Modernism The book centers on three main erasures the erasure of Jewish artists and critics erasures relating to gender and sexual identification and erasures of other marginalized figures and movements Restoring missing elements to the story of the visual arts in early twentieth century Vienna authors investigate issues of gender race ethnic and sexual identity and political affiliation Both well studied artists and organizations such as the Secession and the Austrian Werkbund and iconic figures such as Klimt and Hoffmann are explored as are lesser known figures and movements The book's thought provoking chapters expand the chronological contours and canon of artists surrounding Viennese Modernism to offer original nuanced and rich readings of individual works while offering a more diverse portrait of the period from 1890 through World War II and into the present The book will be of interest to scholars working in art history history design history architectural history and European studies

Rethinking Period Boundaries Lucian George, Jade McGlynn, 2022-03-21

Periodization is an ever present feature of the grammar of history writing As with all grammatical rules the order it imposes can structure but also stifle historical interpretations Though few historians consider their period boundaries as anything more than useful guidelines heuristic artifice all too easily congeals into immovable structure blinkering the historical gaze In this cross disciplinary volume an international group of historians and cultural scholars considers different ways in which accepted period boundaries in modern European history and cultural studies can be challenged and rethought Alongside a theoretical

introduction and epilogue the volume contains seven case studies exploring hitherto under researched continuities and discontinuities in the social cultural intellectual literary labour and art history of 19th and 20th century Europe with a particular focus on the continent's East Topics covered include French anti communism peasant memories of serfdom cosmopolitan art in a nationalist age the communist takeover of Poland Russian literary history and national day traditions in East Central Europe To problematize period boundaries the chapters in this volume adopt the perspective of social groups that standard periodization schemes have ignored shine a light on awkward actors who have appeared out of step with canonical understandings of their period consider how historical actors themselves divide up history and how this informs historical practice and explore the difficulties that the non synchronicity of different historical processes can pose for periodization

Between Ruin and Renewal Professor Kimberly A. Smith, Kimberly A. Smith, Egon Schiele, 2004-01-01 Smith takes a provocative look at the fascinating and beautiful landscapes painted by Austrian artist Egon Schiele 1890-1918 renowned for his intensely confrontational portraits self portraits erotic images and allegories 90 illustrations 50 in color

1910 Thomas Harrison, Professor of Ancient History Thomas Harrison, 1996-04-12 1910 stands out as a model of interdisciplinary and comparative study It brilliantly illustrates the complexity of a crucial period in European culture focusing in particular on the intellectual intricacies of Mitteleuropa on the eve of World War I and of the dissolution of the Austro-Hungarian empire Lucia Re Compellingly original In Harrison's work Michelstaedter and his confreres Campana Slataper Kokoschke Rilke Kandinsky Lukács Trakl et al turn out to be considerably more fascinating and more emblematic of their time than anyone has been able to perceive before Gregory Lucente University of Michigan **Vienna** Nicholas Parsons, 2008-12-16 From border garrison of the Roman Empire to magnificent Baroque seat of the Hapsburgs Vienna's fortunes swung between survival and expansion By the late nineteenth century it had become the western capital of the sprawling Austro-Hungarian Monarchy but the twentieth century saw it degraded to a hydrocephalus cut off from its former economic hinterland After the inglorious Nazi interlude Vienna began the long climb back to the prosperous and cultivated city of 1.7 million inhabitants that it is today Subjected to constant infusions of new Vienna has both assimilated and resisted cultural influences from outside creating its own sui generis culture **Austrian Information**, 1995 *Haeckel's Monism and the Birth of Fascist Ideology* Daniel Gasman, 1998 Utilizing hitherto unexplored material that has become available only after the dismantling of the Berlin Wall this book examines the Monist philosophy of the German zoologist Ernst Haeckel and its role in stimulating the birth of Fascist ideology in Italy and France Focusing on the relevance of evolutionary science Fascist thought is revealed as intimately related to Haeckel's scientific Monism an approach that differs from most interpretations that tend to voice skepticism about the existence of a specific intellectual origin for Fascist ideology

Schoenberg, Kandinsky, and the Blue Rider Magdalena Dabrowski, 2003 The intellectual dialogue and friendship between two key modernist artists the painter Wassily Kandinsky and the composer Arnold Schoenberg forms the focal point

of this fascinating survey charting the early 20th century parallel movements towards abstraction in art and atonality in music

Theodor Herzl and the Origins of Zionism Ritchie Robertson, Edward Timms, 1997 This volume commemorates Theodor Herzl the Viennese journalist and writer who incongruously founded Zionism as a political movement which led ultimately to the founding of the State of Israel The contributors look at Herzl and seek to place him in historical context In particular they examine his relations with Viennese contemporaries his use of his position as a prominent journalist to obtain audiences with world leaders his negotiations with Germany and Britain to obtain a national territory for the Jews and his attempts to analyze and reshape the Jewish character in his fictional writings

Vienna 1900 the heart of the vast Austro Hungarian Empire and a city populated with people from across the Imperial territories stretching from central Europe to the Crown lands that reached far into Southeastern Europe This was a dynamic capital brimming with economic and cultural prosperity a centre that was fertile ground for the revolutionary artistic practices that emerged at the end of the nineteenth century and the backdrop to this fascinating new study Gustav Klimt's election as the first President of the Secession Artists Association in 1897 formalised the rejection of conservatism and heralded a celebration of the innovative and the modern Alongside Klimt Egon Schiele and Oskar Kokoschka have been championed as the key protagonists in the painting revolution that re defined the traditional genres of portrait landscape and allegory However this ignores the significant contribution made by Koloman Moser whose painting is considered alongside that of Klimt Schiele and Kokoschka for the first time in this book Highlighting a decisive moment in the birth of modernity and offering previously unpublished insight into the relationship of Klimt Schiele Moser and Kokoschka from 1890 to 1918 this book with its wealth of stunning images makes an invaluable contribution to Secessionist scholarship and as such is essential reading for anyone wishing to seek a fresh perspective on a fascinating period in the history of art
