Authentic Knowing The Convergence Of Science And Spiritual Aspiration:

Authentic Knowing Imants Barušs,1996 What is the meaning of life Where does everything come from Why is anything In Authentic Knowing Imants Baruss shows us how we might transform ourselves so that we can come closer to answering these existential questions Baruss argues persuasively that our knowledge is limited by the interpretations of experiences provided by the society around us These include the materialistic explanations belonging to a traditional scientific worldview which can account for neither the nature of matter nor anomalous phenomena such as near death experiences However authenticity the effort to act on the basis of one s own understanding can form the basis for answers to existential and scientific questions Science as a Spiritual Practice Imants Barušs,2015-10-21 Science as a Spiritual Practice is in three parts In the first part the author argues that there are problems with materialism and that self transformation could lead individual scientists to more comprehensive ways of understanding reality In the second part he takes on the contentious notion of inner knowledge and shows how access to inner knowledge could be possible in some altered states of consciousness The third part is an analysis of the philosophy of Franklin Wolff who claimed that the transcendent states of consciousness which occurred for him resulted from his mathematical approach to spirituality **The Mysteries of Reality** Gayle Kimball,2021-03-26 Courageous scientists challenge the dominant paradigm of reality Why are they so brave and what does their research reveal What is reality Is there more than we know from our five senses Vanguard scientists believe there is more than we see so they formulate a non materialist paradigm that expands human potential to include mind and matter interaction Since going against the dominant worldview provokes opposition this book explores the personal backgrounds of the scientists to find out why they are so courageous We learn that there is another dimension that allows for enhanced abilities Based on interviews conducted by Gayle Kimball The Mysteries of Reality Dialogues with Visionary Scientists reports on the current research and personal characteristics of visionaries from around the world **Science, Religion and Society** Arri Eisen,Gary Laderman,2015-03-04 This unique encyclopedia explores the historical and contemporary controversies between science and religion It is designed to offer multicultural and multi religious views and provide wide ranging perspectives Science Religion and Society covers all aspects of the religion and science dichotomy from humanities to social sciences to natural sciences and includes articles by theologians religion scholars physicians scientists historians and psychologists among others The first section General Overviews contains essays that provide a road map for exploring the major challenges and questions in science and religion Following this the Historical Perspectives section grounds these major questions in the past and demonstrates how they have developed into the six broad areas of contemporary research and discussion that follow These sections Creation the Cosmos and Origins of the Universe Ecology Evolution and the Natural World Consciousness Mind and the Brain Healers and Healing Dying and Death and Genetics and Religion organize the questions and research that are the foundation of the enormous interest and controversy in science and religion today

Exceptional Human Experience ,1996 **Against and for CBT** Richard House,Del Loewenthal,2008 Offers a wide range of critical perspectives on the rise of Cognitive Behavioural Therapy CBT from around the world *Constructing Clinton* Shawn J. Parry-Giles,Trevor Parry-Giles,2002 Bill Clinton is the embodiment and epitome of American politics in the postmodern mediated age Clinton's able marshaling of images which allowed him to retain popularity and position when faced with compelling obstacles marks him as the preeminent figure in a fluid and fluctuating era of image politics *Constructing Clinton Hyperreality Presidential Image Making in Postmodern Politics* pays particular attention to the collection of disparate sometimes connected often random images that create a site of political meaning we know as Bill Clinton former president of the United States Through analyses of unique image texts including The Man from Hope The War Room Primary Colors MTV's Biorhythms and PBS The American President *Constructing Clinton* focuses on the image of Bill Clinton as it was defined by and trapped in the hyperreality so characteristic of contemporary presidential politics
