## **Authenticities Philosophical Reflections On Musical Performance:**

**Authenticities** Peter Kivy, 2018-09-05 In his latest book on the aesthetics of music Peter Kivy presents an argument not for authenticity but for authenticities of performance including authenticities of intention sound practice and the authenticity of personal interpretation in performance As usual Kivy's work is beautifully written well argued and provocative Notes Kivy has provided a sorely needed framework for all future discussion of the authenticity matter This is his best book a major contribution to performance studies and to musical aesthetics likely it will be studied and cited for generations Choice Written in lively prose with a keen sense of reality this volume ought to be of interest not only to philosophers and musicologists but to all serious lovers of music Roger Scruton Times Literary Supplement The consistent theme running through Kivy's book is the need for interpretation as the personal authenticity and authority of the performer against the ideology both of the composer as genius and of the puritanical devotion to the authority of the text of the early music devotees This is a most valuable book one which constantly surprises and delights through its philosophical insights and informed musical understanding British Journal of Aesthetics *Expressiveness in music performance* Dorottya Fabian, Renee Timmers, Emery Schubert, 2014-07-03 What does it mean to be expressive in music performance across diverse historical and cultural domains What are the means at the disposal of a performer in various time periods and musical practice conventions What are the conceptualisations of expression and the roles of performers that shape expressive performance This book brings together research from a range of disciplines that use diverse methodologies to provide new perspectives and formulate answers to these questions about the meaning means and contextualisation of expressive performance in music The contributors to this book explore expressiveness in music performance in four interlinked parts Starting with the philosophical and historical underpinnings crucially relevant for Western classical musical performance it then reaches out to cross cultural issues and finally focuses the attention on various specific problems including the teaching of expressive music performance skills The overviews provide a focussed and comprehensive account of the current state of research as well as new developments and a prospective of future directions This is a valuable new book for those in the fields of music music psychology and music education **Philosophy of Music** Aaron Ridley, 2019-08-07 New and distinctive approaches to five central topics in musical aesthetics are provided in this outstanding book The topics are understanding representation expression performance and profundity The theme of the book is the failure of the orthodox view that pieces of music are more or less self contained structures of sound to account for some important features of our musical experience and to explain why music should matter to us In exposing and correcting that failure the book introduces readers to the main problems and positions in the philosophy of music proposes fresh solutions to those problems and offers innovative approaches to the philosophy of song to musical ontology and to questions about the value of music Each chapter is built around a single musical work which provides a focus for the reader Features Broad accessible introductory overview

to philosophy of music Original and stimulating insights [The Oxford Handbook of Aesthetics](#) Jerrold Levinson,2003-04-03

The Oxford Handbook of Aesthetics The most comprehensive and authoritative guide available **Music, Language, and Cognition** Peter Kivy,2007 No further information has been provided for this title **History, Ethics, and the Recognition of the Other** Anton Froeyman,2015-09-25 This book introduces a new way of looking at the writing of history Rather than as the production of knowledge or the telling of stories it sees writing history as an ethical existential and emotional engagement with the people from the past The conceptual and philosophical basis for this view is provided by the philosophy of Emmanuel Levinas In the first part the view is presented and contrasted with other competing views such as those of Hans Georg Gadamer and Michel Foucault In the second part the view is argued for most importantly by an in depth discussion of one specific tradition of history writing microhistory and a series of close readings of several classical works from the history of historiography The third part finally explores some of the methodological consequences of this view and applies it to a non academic way of dealing with the past namely historical performance practice in music The book features a foreword by Frank Ankersmit **A Companion to Aesthetics** Stephen Davies,Kathleen Marie Higgins,Robert Hopkins,Robert Stecker,David E. Cooper,2009-03-30 In this extensively revised and updated edition 168 alphabetically arranged articles provide comprehensive treatment of the main topics and writers in this area of aesthetics Written by prominent scholars covering a wide range of key topics in aesthetics and the philosophy of art Features revised and expanded entries from the first edition as well as new chapters on recent developments in aesthetics and a larger number of essays on non Western thought about art Unique to this edition are six overview essays on the history of aesthetics in the West from antiquity to modern times **The Philosophical Review** ,1997 **The Performer's Role** Charise Y. Hastings,2006 Often overlooked in musical analysis the performer plays an important role in the recreation of musical works This dissertation incorporates the performer s perspective by focusing on social physical and mental processes of learning and playing music in the classical piano repertoire Drawing on studies in music and narrative the author argue that a narratological approach can extend beyond the listener s perspective to analyze the performer s experience Abstract **The Solidification of Performance Practice Issues in Solo Percussion Performance** Morris S.
