Author Printer In Victorian England:

Author and Printer in Victorian England Allan C. Dooley, 2015-01-01 Author and Printer in Victorian England demonstrates that printing technology shapes texts. The technology involved was a nineteenth century revolution in printing methods: the texts were classic literary works by Victorian authors. What was at stake was textual control: who would decide how the text would read: author, compositor, printer, s, reader, or publisher. In a unique fusion of literary history and printing history, Allan C. Dooley explores the interactions between individual authors and their publishers and printers. He takes the reader through each stage of a work's development, illustrating how authors attempted to perfect and protect their writings from compositional manuscript through stereotyped reprints. His analysis includes details of a wide range of technical innovations and changes in practices in the printing of books between the development of printing machines in the 1830s and 1840s and the introduction of the Linotype in the 1890s. Drawing on the experiences of leading Victorian authors, he shows how nineteenth century printing practices both enhanced and diminished writers' abilities to control texts. He reveals that much more was under their control than has commonly been believed and that many authors took advantage of printing technologies in order to gain and maintain control over the texts of their works. But new kinds of errors and new sources of inaccuracy were introduced by the technology as well.

Author and Printer in Victorian England Allan C. Dooley, **Nineteenth Century Prose**, 1994 George Eliot's Grammar of Being Melissa Anne Raines, 2013-12-01 George Eliot's writing process was meticulous in all of its phases from manuscript to published text. Each of her extensive novels has a delicately crafted syntax for she shaped her individual sentences as carefully as she wanted her public to read them. Building on the influence of Victorian psychological theory, this book explains how George Eliot consciously created subtle shocks within her grammar, reaching out to her readers beneath the levels of character and story in her effort to inspire sympathetic response.

Edward FitzGerald, Rubáiyát of Omar Khayyám Omar Khayyam, Edward FitzGerald, 1997 Christopher Decker's critical edition of the Rubaiyat is the first to publish all extant states of the poems and to unearth a full record of its complicated textual evolution.

Ellipsis in English Literature Anne Toner, 2015-03-05 Anne Toner provides an original account of the history of ellipsis marks: dots, dashes, and asterisks in English literary writing. Highlighting ever-renewing interest in these forms of non-completion in literature, Toner demonstrates how writers have striven to get closer to the hesitations and interruptions of spoken language, the indeterminacies of thought, and the successive or fragmented nature of experience by means of these textual symbols. While such punctuation marks may seem routine today, this book describes their emergence in early modern drama and examines the relationship between authors, printers, and grammarians in advancing or obstructing the standardisation of the marks. Their development is explored through close study of the works of major English writers including Jonson, Shakespeare, Richardson, Sterne, Meredith, and Woolf, along with visual illustrations of their usage. In particular, Toner traces the evolution of ellipsis marks in the novel, a form highly receptive to elliptical
