Authorial Divinity In The Twentieth Century:

Authorial Divinity in the Twentieth Century Barbara K. Olson, 1997 Whatever a writer's religious assumptions and histories the literary device of omniscient narration traps a writer into a pose as God at least some sort of God be it one the writer eschews avows or longs for In this study Barbara K Olson examines the relationship between both the writer and the omniscient narrator to God Olson explains how modernists Ernest Hemingway and Virginia Woolf both illustrate how authors particular styles of omniscience bear a reliable though variable relation to their own or their culture's particular conceptions of God The experience of novelists generally attests to perennial theological conundrums into which their creating and narrating have cast them transcendence vs immanence providential care vs cosmic capriciousness determinism vs freedom Not surprisingly such atheists as John Fowles and Ronald Sukenick have aimed their narrational experiments in omniscience at subverting what Fowles has called the godgame that this device requires Such other writers as Flannery O'Connor Graham Greene and Murial Spark have predictably relied on the device as one consonant with their theistic assumptions

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved [Stephen King's Contemporary Classics](#) Philip L. Simpson, Patrick McAleer, 2014-11-13 Many readers know Stephen King for his early works of horror from his fiction debut *Carrie* to his blockbuster novels *The Shining* *The Stand* and *Misery* among others While he continues to be a best selling author King's more recent fiction has not received the kind of critical attention that his books from the 1970s and 1980s enjoyed Recent novels like *Duma Key* and *11/22/63* have been marginalized and arguably cast aside as anomalies within the author's extensive canon In *Stephen King's Contemporary Classics: Reflections on the Modern Master of Horror* Philip L. Simpson and Patrick McAleer present a collection of essays that analyze assess and critique King's post-1995 compositions Purposefully side-stepping studies of earlier work these essays are arranged into three main parts the first section examines five King novels published between 2009 and 2013 offering genuinely fresh scholarship on King the second part looks at the development of King's distinct brand of horror the third section departs from probing the content of King's writing and instead focuses on King's process By concentrating on King's most recent writings this collection offers provocative insights into the author's work featuring essays on *Dr Sleep* *Duma Key* *The Girl Who Loved Tom Gordon* *Joyland* *Under the Dome* and others As such *Stephen King's Contemporary Classics* will appeal to general fans of the author's work as well as scholars of Stephen King and modern literature [Virginia Woolf as a Process-Oriented Thinker](#) Veronika Krajčková, 2023-10-02 Virginia Woolf as a Process Oriented Thinker Parallels Between Woolf's Fiction and Process Philosophy introduces Virginia Woolf as a nondualist and process oriented thinker whose ideas are despite no direct influence strikingly similar to those of Alfred North Whitehead Veronika Krajčková argues that in their respective fields literature and philosophy Woolf and Whitehead both criticized the materialist turn of their time and attempted to reattribute importance to experience and undermine long rooted dualisms such as subject and object the animate and the inanimate the

human and the nonhuman or the self and the other By erasing the gaps between these dualities the two thinkers anticipated the poststructuralist thought with which Woolf has been anachronically associated in the last decades Kraj ckov shows that there is no need to analyze Woolf s fiction via critical and philosophical theories that developed much later This book demonstrates that Woolf and Whitehead s ideas may help us adopt more ecologically friendly selfless intersubjective and harmless modes of being in the present day Both figures emphasize the intrinsic value and importance of each constituent of reality and teach us to appreciate the aesthetic values dispersed throughout our environment

Magic Words, Magic Worlds Matthew Oliver,2022-06-07 While all fiction uses words to construct models of the world for readers nowhere is this more obvious than in fantasy fiction Epic fantasy novels create elaborate secondary worlds entirely out of language yet the writing style used to construct those worlds has rarely been studied in depth This book builds the foundations for a study of style in epic fantasy Close readings of selected novels by such writers as Steven Erikson Ursula Le Guin N K Jemisin and Brandon Sanderson offer insights into the significant implications of fantasy s use of syntax perspective paratexts frame narratives and more Re examining critical assumptions about the reading experience of epic fantasy this work explores the genre s reputation for flowery archaic language and its ability to create a sense of wonder Ultimately it argues that epic fantasy shapes the way people think examining how literary representation and style influence perception
