Autistic States In Children:

Autistic States in Children Frances Tustin, 2021-03-28 Frances Tustin 1913 1994 was one of the first professionally trained child psychotherapists in Britain Although internationally recognised for her pioneering therapeutic work with autistic children her approach is considered by some to be controversial as her psychogenic view of childhood autism challenged the belief that it is biological and genetic *Autistic States in Children* is widely regarded as a vitally important work for understanding the causes of autism in young children Vividly describing her clinical encounters with autistic children Tustin argued that autistic states were above all self protective ones In her observational studies she noted how autistic children s interaction with physical objects such as keys toy cars or other play items had a rigid and ritualistic quality far removed from the typical kind of fantasy play seen in other children Such objects are not used by autistic children for their intended purpose Tustin argued but rather in sensation dominated ways that interfere with mental development She also drew a fundamental distinction between two autistic groups an encapsulated group which is withdrawn and non verbal and an entangled group who are hyperactive and chaotic but have some language *Autistic States in Children* influenced not only those in psychotherapy and psychoanalysis but countless others who have contact with autistic children especially families and remains essential reading for anyone seeking a creative and compelling understanding of autism This Routledge Classics edition includes a new Foreword by Maria Rhode Encounters with Autistic States Theodore Mitrani, Judith L. Mitrani, 1997-08 This text presents the work of 21 eminent psychoanalysts and child therapists from three continents including Professors Didier Houzel of France and Renata Gaddini of Italy Drs David Rosenfeld of Argentina James Grotstein Victoria Hamilton Judith Mitrani and Thomas Ogden of the USA and Susanna Isaacs Elmhirst and Isca Wittenberg of England who explore and expand upon the work of the late Frances Tustin which was devoted to the psychoanalytic understanding of the bewildering elemental world of the autistic child Her realization that neurotic and borderline patients are haunted by the same primeval forces which constitute an enclave of autism has been profound and the notion that autistic manoeuvres serve as a protective shell against the terrifying premature awareness of bodily separateness and dissolution into nothingness has had a substantial impact upon the re thinking of many notable workers in the mental health field **The Handbook of Child and Adolescent Psychotherapy** Monica Lanyado, Ann Horne, 2009-06-09 This second edition provides a uniquely comprehensive guide to the practice and principles of child and adolescent psychotherapy around the world and has been thoroughly updated to take into account the many changes that have taken place **Birth in Kabbalah and Psychoanalysis** Ruth Kara-Ivanov Kaniel, 2022-07-05 *Birth in Kabbalah and Psychoanalysis* examines the centrality of birth in Jewish literature gender theory and psychoanalysis thus challenging the centrality of death in Western culture and existential philosophy In this groundbreaking study Ruth Kara Ivanov Kaniel discuss similarities between Biblical Midrashic Kabbalistic and Hasidic perceptions of birth as well as its place in contemporary cultural and psychoanalytic discourse In

addition this study shows how birth functions as a vital metaphor that has been foundational to art philosophy religion and literature Medieval Kabbalistic literature compared human birth to divine emanation and presented human sexuality and procreation as a reflection of the sefirotic structure of the Godhead an attempt Kaniel claims to marginalize the fear of death by linking the humane and divine acts of birth This book sheds new light on the image of God as the Great Mother and the crucial role of the Shekhinah as a cosmic womb Birth in Kabbalah and Psychoanalysis won the Gorgias Prize and garnered significant appreciation from psychoanalytic therapists in clinical practice dealing with birth trauma postpartum depression and in early infancy distress **Exceptional Child Education Resources** ,1982 The Prevention of Damaging Stress in Children World Federation for Mental Health.
