Automated Defibrillation For Professional And Lay Rescuers:

Automated Defibrillation for Professional and Lay Rescuers Jeffrey W. Myers, 1999 This brief easy to understand manual is ideal for teaching both professional volunteer and paid and lay rescuers such as public safety personnel participating in a CPR Defibrillation program how to use AEDs It provides a solid framework for basic AED concepts then refers the reader to other references for additional information To fully integrate the AED into patient management the rescuer must know the basics of operating the AED plus understanding the anatomy and physiology of the cardiovascular system the signs and symptoms of cardiovascular disorders and assessment and treatment of these disorders ECG EKG cardiac function AED defibrillation EMS nursing dysrhythmias arrhythmias cardiovascular disorders

Textbook of Adult Emergency Medicine E-Book Peter Cameron, Mark Little, Biswadev Mitra, Conor Deasy, 2019-05-23 Since the first edition of Textbook of Adult Emergency Medicine was published twenty years ago there has been enormous change in the way emergency care is delivered This has occurred both in countries where emergency medicine was originally developed and in those where its application was limited because of cost Emergency medicine is now perceived as the cornerstone of response to acute illness regardless of resources This fully revised Fifth Edition provides clear and consistent coverage of this constantly evolving specialty Building on the success of previous editions it covers all the major topics relevant to the practice of emergency medicine The book will prove invaluable to professionals working in this setting including nurse specialists and paramedics who require concise highly practical guidance incorporating the latest best practice and evidence based guidelines This edition comes with an enhanced electronic version with video and self assessment content providing a richer learning experience and making rapid reference easier than ever before anytime anywhere A comprehensive textbook of adult emergency medicine for trainee doctors covers all the problems likely to present to a trainee in the emergency department Chapters are highly readable and concise boxes summarise chapter key points and highlight controversial areas of treatment The content is highly practical clinically orientated and thoroughly updated in all the core subjects There have been major updates in topics such as airway shock and sepsis where guidelines have changed rapidly The imaging chapters have also evolved with changing practice and improved technology to be concordant with evidence on the importance of image interpretation by emergency clinicians There are major sections on other skills and issues of key importance to today's advanced emergency medicine practitioner such as staffing overcrowding triage patient safety and quality measures In addition difficult topics such as death and dying the challenging patient ethics giving evidence and domestic violence are covered Governance training research and organisational subjects such as disaster planning and response humanitarian emergencies and refugee medicine are included to give the reader a framework to understand the complexity of managing major emergency systems of care

Strategies to Improve Cardiac Arrest Survival Institute of Medicine, Board on Health Sciences Policy, Committee on the Treatment of Cardiac Arrest: Current Status and Future Directions, 2015-09-29

Cardiac arrest can strike a seemingly healthy individual of any age race ethnicity or gender at any time in any location often without warning Cardiac arrest is the third leading cause of death in the United States following cancer and heart disease Four out of five cardiac arrests occur in the home and more than 90 percent of individuals with cardiac arrest die before reaching the hospital First and foremost cardiac arrest treatment is a community issue local resources and personnel must provide appropriate high quality care to save the life of a community member Time between onset of arrest and provision of care is fundamental and shortening this time is one of the best ways to reduce the risk of death and disability from cardiac arrest Specific actions can be implemented now to decrease this time and recent advances in science could lead to new discoveries in the causes of and treatments for cardiac arrest However specific barriers must first be addressed Strategies to Improve Cardiac Arrest Survival examines the complete system of response to cardiac arrest in the United States and identifies opportunities within existing and new treatments strategies and research that promise to improve the survival and recovery of patients The recommendations of Strategies to Improve Cardiac Arrest Survival provide high priority actions to advance the field as a whole This report will help citizens government agencies and private industry to improve health outcomes from sudden cardiac arrest across the United States

Advanced Cardiac Life Support Richard O. Cummins,1997 *Cardiac Arrest* Norman A. Paradis, Henry R. Halperin, Karl B. Kern, Volker Wenzel, Douglas A. Chamberlain, 2007-10-18 Cardiac Arrest is the definitive and most comprehensive reference in advanced life support and resuscitation medicine This new edition brings the reader completely up to date with developments in the field focusing on practical issues of decision making clinical management and prevention as well as providing clear explanations of the science informing the practice The coverage includes information on the latest pharmacotherapeutic options the latest chest compression techniques and airway management protocols all backed by clearly explained evidence based scientific research The content is consistent with the latest guidelines for practice in this area as detailed by the major international governing organisations This volume is essential reading for all those working in the hospital environments of emergency medicine critical care cardiology and anesthesia as well as those providing care in the pre hospital setting including paramedics and other staff from the emergency services
