Auschwitz 1270 To Present:

Auschwitz, 1270 to the Present Deborah Dwork, Robert Jan Pelt, 1996 *Auschwitz 1270 to the Present* elucidates how the prewar ordinary town of Auschwitz became Germany's most lethal killing site step by step and in stages a transformation wrought by human beings mostly German and mostly male Who were the men who conceived created and constructed the killing facility What were they thinking as they inched their way to iniquity Using the hundreds of architectural plans for the camp that the Germans in their haste forgot to destroy as well as blueprints and papers in municipal provincial and federal archives Deborah Dwork and Robert Jan van Pelt show that the town of Auschwitz and the camp of that name were the centerpiece of Himmler's ambitious project to recover the German legacy of the Teutonic Knights and Frederick the Great in Nazi ruled Poland Analyzing the close ties between the 700 year history of the town and the five year evolution of the concentration camp in its suburbs Dwork and van Pelt offer an absolutely new and compelling interpretation of the origins and development of the death camp at Auschwitz And drawing on oral histories of survivors memoirs depositions and diaries the authors explore the ever more murderous impact of these changes on the inmates daily lives

The Crime of My Very Existence Prof. Michael Berkowitz, 2007-09-03 *The Crime of My Very Existence* investigates a rarely considered yet critical dimension of anti-Semitism that was instrumental in the conception and perpetration of the Holocaust the association of Jews with criminality Drawing from a rich body of documentary evidence including memoirs and little studied photographs Michael Berkowitz traces the myths and realities pertinent to the discourse on Jewish criminality from the eighteenth century through the Weimar Republic into the complex Nazi assault on the Jews and extending into postwar Europe

The Historiography of the Holocaust D. Stone, 2004-01-20 This collection of essays by leading scholars in their fields provides the most comprehensive and up to date survey of Holocaust historiography available Covering both long established historical disputes as well as research questions and methodologies that have developed in the last decade's massive growth in Holocaust Studies this collection will be of enormous benefit to students and scholars alike

The Business of Genocide Michael Thad Allen, 2003-04-03 During World War II hundreds of thousands of prisoners were worked to death by the Nazis under a brutal system of slave labor in the concentration camps By 1942 this vast network of slavery extended across all of German occupied Europe but the whole operation was run by a surprisingly small staff of bureaucrats no more than 200 engineers and managers who worked in the Business Administration Main Office of the SS Their projects included designing and constructing the concentration camps and gas chambers building secret underground weapons factories and brokering slave laborers to private companies such as Volkswagen and IG Farben *The Business of Genocide* powerfully contradicts the assumption that the SS forced slavery upon the German economy demonstrating that instead industrialists actively sought out the Business Administration Main Office as a valued partner in the war economy Moreover while the bureaucrats who oversaw Holocaust operations have often been seen as technocrats or simple cogs in the machinery the

book reveals their ideological dedication even fanatical devotion to slavery and genocide in the name of National Socialism

Studies in Contemporary Jewry Jonathan Frankel, 1998-02-05 Was the Holocaust a natural product of a long German history of Anti-Semitism Or were the Nazi policies simply a wild mutation of history not necessarily connected to the past Or does the truth lie somewhere in between This latest volume in the acclaimed *Studies in Contemporary Jewry* series edited by internationally known scholars at the Hebrew University in Jerusalem presents essays on the origins of the Holocaust The works in this volume are diverse in scope and opinion ranging from general philosophical discourses to detailed analyses of specific events and often reflecting the divergent ideologies and methods of the contributors But each adds to the whole and the result is a fascinating panorama that is sure to be indispensable to all students and scholars of the subject **The**

R. Browning, 2010-12-21 A remarkable story of survival for almost three hundred Jews who live to recount the brutalities of a Nazi work camp In 1972 the Hamburg State Court acquitted Walter Becker the German chief of police in the Polish city of Starachowice of war crimes committed against Jews Thirty years before Becker had been responsible for liquidating the nearby Jewish ghetto sending nearly 4 000 Jews to their deaths at Treblinka and 1 600 to slave labor factories The shocking acquittal delivered despite the incriminating eyewitness testimony of survivors drives this author's inquiry Drawing on the rich testimony of survivors of the Starachowice slave labor camps Christopher R Browning examines the experiences and survival strategies of the Jewish prisoners and the policies and personnel of the Nazi guard From the killings in the market square in 1942 through the succession of brutal camp regimes there are stories of heroism of corruption and retribution of desperate choices forced on husbands and wives parents and children In the end the ties of family and neighbor are the sinews of survival **History on Trial** Deborah E. Lübbren, 2003-05 From postcards paintings to photography film tourism visual culture have a longstanding history of mutual entanglement This book explores the complex association between tourism visual culture throughout history across cultures

The Holocaust Donald Bloxham, Antony Robin Jeremy Kushner, 2004 Despite the massive literature on the Holocaust our understanding of it has traditionally been influenced by rather unsophisticated early perspectives and silences This book

summarises and criticises the existing scholarship on the subject and suggests new ways by which we can approach its study. It addresses the use of victim testimony and asks important questions: What function does recording the past serve for the victim? What do historians want from it? Are these two perspectives incompatible? The perpetrators of the Holocaust and the development of the murder process are closely examined. The book also compares the mentalities of the killers and the contexts of the killing with those in other acts of genocide and ethnic cleansing in the first half of the twentieth century, searching for an explanation within these comparisons. In addition, it looks at the bystanders to the Holocaust, considering the complexity and ambiguity at the heart of contemporary responses, especially within the western liberal democracies. Ultimately, this text highlights the essential need to place the Holocaust in the broadest possible context, emphasising the importance of producing high quality but sensitive scholarship in its study.
