Australia 1939 The Gathering Storm:

Churchill and Australia Graham Freudenberg, 2008-11-01 Australia seemed to bring out the worst in Winston Churchill Often enough to form a discernible pattern Australia found itself on the wrong side of the very qualities his strength of will singleness of purpose his refusal to give way in things great or small large or petty the power of his imagination to set grim reality at defiance his mastery of the English language that made Winston Churchill as the philosopher Isaiah Berlin described him the saviour of his country the largest human being of his time Winston Churchill was a titan of the 20th Century universally acknowledged as one of the greatest leaders of his age Yet his relationship with Australia was a fraught one tainted by the military failure of the Gallipoli campaign in the First War and the disaster of Singapore in the Second Churchill the patrician descendant of dukes could not appreciate Australia's dearly held egalitarianism while Churchill the imperial statesman was impatient and at times intolerant of Australia's growing urge towards independence The relationship between the two would span the first 50 tumultuous years of the 20th Century from the Boer War through to opening salvos of the Cold War and act as a fascinating backdrop to Australia's maturity from a collection of autonomous colonies to full nationhood Written with extraordinary narrative verve and relying on exhaustive research and a true insider's knowledge of the political world this is history written at its compelling best Winner of the Walkley Award for Non fiction 2008

A Ceaseless Watch Angus Britts, 2021-04-15 A Ceaseless Watch: Australia's Third Party Naval Defense 1919-1942 illustrates how Australia confronted the need to base its post-World War I defense planning around the security provided by a major naval power in the first instance Britain and later the United States. Spanning the period leading up to Australia's greatest security crisis, the military threat posed by Japan throughout the majority of 1942, the work takes the reader all the way up to the defeat of the Imperial Japanese Navy by the United States Navy in the Solomon Islands campaign. Angus Britts focuses on Anglo-Australian defense relations from 1919-42 when the British were Australia's primary naval protectors until they were superseded in the Pacific by the United States in May 1942 at the battle of the Coral Sea. Britts traces the process of the alignment or divergence of differing strategic interests between Australia and Britain in particular. Taking place against the backdrop of Imperial Japan's expansionism, debates within Australian political and defense circles during this period, namely the nature of the most likely threat to the continent itself, what became an important subplot to the events then unfolding in the Pacific. Looking at the development of the Singapore strategy which utilized the British fleet at Singapore to protect Australia's interests, Britts lays out how the cornerstone for Australian defense planning was based on the continued assurances from successive British governments that they would honor their naval commitments should Australia itself eventually come under serious threat from Japanese aggression. The Australian-American defense relationship evolved at a later stage within the timeframe in this work but the varying interactions between both nations throughout the interwar years are likewise addressed as is the foundation of their wartime relations. Britts illustrates the difficulty in forming a defense relationship between small and great powers where the needs of the former are not subsumed by the interests of the

latter from the interwar years to the start of World War II In an era when the entire Pacific region was at war the inability of a larger power to fulfill its side of a defensive pact with a smaller power shaped the future of the region itself **Historical Studies** ,1976 Includes section Reviews *The Far East and Australasia, 1982-83* International Publications Service,1982
