A. Henry, Norman A. Stahl, 2026-01-29 *Literacy Tutoring in the Community* presents best practices in literacy tutoring through a guidebook of high impact and systematic instruction toward successful tutoring. With a grounding in pedagogical philosophies, this book includes structured approaches to tutoring aligned to the five pillars set forth by the National Reading Panel and it focuses on a variety of proven tutoring models, e.g., supplemental instruction, cross-age tutoring, parents as tutors. This book emphasizes the importance of leveraging literature to enrich tutoring practices while also making connections between tutoring and schoolwork from the elementary level up to college entry. Through an intentional, culturally responsive lens, the authors build on funds of knowledge and use a language experience approach along with culturally and linguistically diverse texts to enhance instruction for diverse learners. The book ends with a series of case studies highlighting specific literacy challenges as well as tools for tutors such as a tutoring session lesson plan, literacy lesson log, reading skills checklist, tutor report form, and more. This book will be a beneficial resource to tutors working with learners across all ages and school levels. It can serve as a desk reference for literacy-focused tutoring programs in libraries, community centers, colleges, service learning classes, philanthropic organizations, and more. Wright, Katherine Landau, Hodges, Tracey S., 2023-08-01 *Assessing Disciplinary Writing in Both Research and Practice* tackles the challenge of measuring writing skills in specific content areas, which is crucial for preparing students to communicate as field experts and for their future careers. Edited by Katherine Wright, Associate Professor of Literacy and Language at Boise State University, and Tracey Hodges, Founder and Lead Consultant of The Empowering Advocate, this book provides solutions by bringing together validated measures and practical assessment strategies that can be used in both research and instruction. The book's theoretical foundations cover multimodal disciplinary writing, assessing disciplinary writing versus content area writing, and using assessment as a tool for disciplinary writing instruction. Practical methods for assessing writing in social studies, science, mathematics, English, and language arts and other genres at the elementary, middle, and high school levels are included, as well as assessment strategies for specific populations of students such as undergraduate students, English learners, gifted and talented students, special needs students, and incarcerated students. This highly valued reference is essential for academic scholars, K-12 teachers, and educational researchers who want to improve writing instruction and research in content and discipline-specific areas. By providing validated measures and methods for assessing disciplinary writing, this edited book helps bridge the gap between research and practice and enables practitioners to better measure student growth and improve writing instruction. This publication is the first step towards advancing research and improving writing instruction in content and discipline-specific areas. *The Pursuit of Literacy* Michael R. Sampson, 1986
