Hooper,2005-09-27 Travel Writing and Ireland 1760 1860 examines a range of mainly British travel and travel writing material from the period 1760 to 1860 Beginning with an analysis of the Home Tour and Ireland s function within it the book then considers the role of the Post Union traveller followed by an analysis of the impressions formed by Famine writers the book then concludes with an assessment of those who journeyed to Ireland in the immediate aftermath of Famine Following a chronological structure Travel Writing and Ireland 1760 1860 offers readings of hitherto under researched material from a significant period in Irish history

Charitable Words Margaret Preston,2004-10-30 Mismanaged by local authority in the 19th century Dublin lacked sufficient industrial development to provide adequate employment Dublin s charitable workers attempted to improve the lives of the thousands who flocked to the city in search of relief As a means to examining the hidden incentives of charity the author offers a discussion of the language of charity in this setting She notes how contemporary notions of race class and religion influenced how Ireland s philanthropists thought of and related to the poor While much has been written on the perceived racial inferiority of the Celt as compared to the Anglo Saxon Preston suggests that the Irish upper classes in seeking to gain equal footing with the British elite adopted the same language to describe the poor Intense sectarian strife marred Irish charities and undermined the smooth operation of social services Preston offers insight by focusing on two women philanthropists who battled for the souls of Ireland s children She also explores those who remained above the fray such as the Religious Society of Friends in Ireland who offered aid to all regardless of creed Within the charitable records of this group Preston contends that one can see how the Society changed over time and that in Ireland the industrial revolution as well as the 1798 Rebellion contributed to the Society adapting to the mainstream Finally the women of charity helped to establish a modern nursing system for Ireland and this work details their efforts at turning nursing into a respectable profession for women

Americans unceasing opposition to Black freedom Embracing Emancipation tackles a perennial question in scholarship on the Civil War era Why did Irish Americans who claimed to have been oppressed in Ireland so vehemently opposed the antislavery movement in the United States Challenging conventional answers to this question that focus on the cultural political and economic circumstances of the Irish in America Embracing Emancipation locates the origins of Irish American opposition to antislavery in famine era Ireland There a distinctively Irish critique of abolitionism emerged during the 1840s one that was adopted and adapted by Irish Americans during the sectional crisis The Irish critique of abolitionism meshed with Irish Americans belief that the American Union would uplift Irish people on both sides of the Atlantic if only it could be saved from the forces of disunion Whereas conventional accounts of the Civil War itself emphasize Irish immigrants involvement in the New York City draft riots as a brutal coda to their unflinching opposition to emancipation Delahanty uncovers a history of Irish Americans who embraced emancipation Irish American soldiers realized that aiding Black southerners attempts at self liberation would help to subdue the Confederate rebellion Wartime developments in the United States and Ireland affirmed Irish American Unionists belief that the perpetuity of their adopted country was vital to the economic and political prospects of current and future immigrants and to their hopes for Ireland s independence Even as some Irish immigrants evinced their disdain for emancipation by lashing out against Union authorities and African Americans in northern cities many others argued that their transatlantic interests in restoring the Union now aligned with slavery s demise While myriad Irish Americans ultimately abandoned their hostility to antislavery their backgrounds in and continuously renewed connections with Ireland remained consistent influences on how the Irish in America took part in debate over the future of American slavery **Cosmopolitan Nationalism in the Victorian Empire** J.

Landlords, Tenants, Famine Desmond Norton, 2006 Desmond Norton's fascinating study of the relationships between landlords and tenants in Ireland during the Great Famine period of the 1840s is principally based on a large uncatalogued archive in private ownership of the Stewart and Kincaid land agents Much of the information from this unique resource is being published for the first time Norton challenges existing assumptions about landlord tenant relations emigration and land improvement during the famine decade Messrs Stewart and Kincaid was a firm of land agents based in Dublin and most of the correspondence was addressed to its office there The letters in the archive relate mainly to the estates managed by the firm during the 1840s and give a rounded picture of life in the Irish countryside during the period They provide evidence of some humane and caring landlords the activities of middlemen suffering tenants and emigration in a large number of locations including Sligo and Roscommon Clare and Limerick Kilkenny Carlow and Westmeath Many famous families appear such as the Pakenhams and Ponsonbys well known historical figures such as Lord Palmerston who was foreign secretary and prime minister as well as being a landlord in Sligo and Dublin The evidence of the Stewart and Kincaid archives is complemented by research into other family archives and from the author's meetings with descendants of many of the families discussed
