Reiff, 2013-02-28 *Exploitation and Economic Justice in the Liberal Capitalist State* develops the first new liberal theory of economic justice to appear since John Rawls and Ronald Dworkin proposed their respective theories back in the 1970s and early 1980s It does this by presenting a new liberal egalitarian non Marxist theory of exploitation that is designed to be a creature of capitalism not a critique of it Indeed the book shows how we can regulate economic inequality using the presuppositions of capitalism and political liberalism that we already accept In doing this the book uses two concepts or tools a re conceived notion of the

ancient doctrine of the just price and the author's own concept of intolerable unfairness. The resulting theory can then function as either a supplement to or a replacement for the difference principle and luck egalitarianism, the two most popular liberal egalitarian theories of economic justice of today. It provides a new, highly topical, specific moral justification not only for raising the minimum wage but also for imposing a maximum wage, for continuing to impose an estate tax on the wealthiest members of society, and for prohibiting certain kinds of speculative trading, including trading in derivatives such as the now infamous credit default swap and other related exotic financial instruments. Finally, it provides a new, specific moral justification for dealing with certain aspects of climate change, now regardless of what other nations do. Yet it is still designed to be the object of an overlapping consensus, that is, it is designed to be acceptable to those who embrace a wide range of comprehensive moral and political doctrines, not only liberal egalitarianism but right and left libertarianism too. Cutting Rhythms Karen Pearlman, 2012-08-21. This groundbreaking book presents a brand new methodology for improving a film edit.

Styles of Creation George Edgar Slusser, Eric S. Rabkin, 1992. The impetus behind this collection of original essays is the tension between the aesthetic emphasis on stylistics in science fiction and fantasy writing and the critical limitations imposed by prevailing literary theory. From a variety of perspectives, the contributors show how a new or expanded set of methods and models can enrich critical exchange within the genre and between it and other types of fiction. The focus of the book is not entirely on critical restraints but also on the genre's robustly subversive creative drive, its unwillingness or inability to pause for critical validation. The essays examine the proliferation of stylistic acts and experiments in science fiction and fantasy writing, assess the genre's revolutionary qualities, its reordering of narrative priorities, inversion of consecrated categories, and elevation of minor devices.

Where the World is Not Kim Savelson, 2009. How do novels that literally discuss invention and inventors engage through such discussions, an array of critically important conversations and issues beyond invention? And to where and how can we trace and follow such discourses? In *Where the World Is Not*, Cultural Authority and Democratic Desire in Modern American Literature, Kim Savelson examines the ways in which resoundingly popular U.S. novels by Frank Norris, Willa Cather, F. Scott Fitzgerald, and Ralph Ellison host the tug of war between thought and action between the democratic agenda of the pragmatist movement and the aristocratic idea of aesthetics. Savelson argues for and reads these novels as a way of thinking through the implications for the meaning and making of culture brought about by the ongoing social revolution of democratic modernity. She thus expands the scope of the current work being done on pragmatism as well as the work being done on literature and democracy, carving out an intersection of these two fields. Savelson demonstrates that the questions under her consideration appeared at different key moments over the course of the first half of the twentieth century, embodying and deepening the struggle between the abstract and the practical, the cultural and the commercial, a struggle that turned into a dilemma and a period of growth for modern democratic desire. In so doing, she offers a historical recontextualization of selected literary texts, analyzing them as a way of thinking about intellectual
