A System of Metaphysics George Stuart Fullerton, 2015-06-15 Excerpt from *A System of Metaphysics* Some of the material in Chapters I II and V of this volume has already appeared in the *Psychological Review* and Chapters XV XVI and XVII have been reprinted without very much change They first appeared as articles in the same journal In Chapter XXXIII I have made some use of two articles published in the *Popular Science Monthly* The chapters on Space and Time are reprinted from the *Philosophical Review* with little change except that in Chapter XI some new matter has been added To the editors of the journals mentioned Professor Cattell Professor Baldwin and Professor Creighton my thanks are due for their courtesy in permitting me to reprint as I have done Thus about one fourth of the present volume has already seen the light It is right that I should say that nothing that has already appeared has been taken up into the book as an afterthought From the beginning the work has been a unit it has been for a number of years on my hands and the publication of the papers above mentioned was due largely to a curiosity to see how the doctrines advocated would impress others It was perhaps hardly fair to present them deprived of their setting and this injustice if injustice it be is remedied now At the end of the book I have placed a note on the Physical World Order by my former pupil Professor Edgar A Singer Jr of the University of Pennsylvania It has seemed to me of especial interest as coming from one trained in metaphysical analysis and familiar with the principles and methods of the sciences About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
