A Time Of Changes:

A Time of Changes Robert Silverberg,2012-03-05 Three thousand years after Earth s colonisation of the planet Borthan stories of self serving hypocrisy that occurred among the first arrivals have bred a culture that forbids emotional sharing and denies the naturally human concept of self The result is a lasting peace but at a terrible price For it is a peace without love without self where even the mention of the word I is taboo Spurred on by the arrival of an Earthman with a self baring drug Kinnall Darival breaks the strict code of the Covenant to record the sordid details of his rebellious life from the days of his royal youth to self appointed prophet of love He begins his account with the greatest of heresies I am Kinnall Darival and I mean to tell you all about myself Winner of the Nebula Award for best novel **A Time of Changes** Robert

Silverberg,2024-03-26 With a new introduction by author Robert Silverberg and the first ever map of Borthan this Nebula Award winning classic sci fi novel A Time of Changes out of print since 1992 will delight fans of dystopian fiction In the far future Earth is a worn out backwater and humanity is spread across the galaxy on worlds that began as colonies but now feel like home each with its own long history of a thousand years or more and each with its own unique culture One of the strangest is on Borthan where the founding settlers established the Covenant which teaches that the self is to be despised and forbids anyone to reveal his innermost thoughts or feelings to another On Borthan the filthiest obscenities imaginable are the words I and me For the heinous crime of self baring apostates have always paid with exile or death but after his eyes are opened by a visitor from Earth Kinnall Darival prince of Salla risks everything to teach his people the real meaning of being human **The Bases of Values in a Time of Change** Kirti Bunchua,1999 *Coexistence and Time of Change*

Bobushev Temirbek Seitkazievich,2025-04-28 The coexistence of the environment and humanity in time and in a certain space presupposes the improvement of our knowledge to recognize and propose solutions to overcome the emerging changes in such a system of coexistence in its evolution of development Coexistence in conditions of changing state of the environment and humanity system presupposes commitment to the concept of equilibrium development within the framework of regulated consumption and production without violating the integrity and unity of human development The most important feature of such coexistence is the existence of a symbiotic relationship between the environment and humanity in which neither side should be given priority or try to suppress or even destroy the other This book is a continuation of the author s two previous publications Access Code to Coexistence and Coexistence Countdown and offers consideration and discussion of issues of systemic coexistence of the environment and humanity based on the concept of equilibrium development **A**
