Das, Viktor Èmmanuilovich Malyshkin, 1997 **Enabling Technology for Simulation Science** , 1997 Improving Air Force Purchasing and Supply Management of Spare Parts Robert W. Bickel, 2003 This research provides the Air Force with a methodology for evaluating various strategies to improve the procurement of spare parts and applies the methodology to F100 engine parts The author uses exploratory analysis techniques and system dynamic modeling to gain a better understanding of the effectiveness of various supplier management policies including identifying those policy levers most effective in improving various measures

of interest The research shows that policy and organizational changes in the purchasing and supply management PSM process have the potential to improve effectiveness while maintaining or lowering costs It also demonstrates that a system dynamic model can be an important contribution to defining discussing and understanding the complex interactions among policy levers and outcome measures particularly in enhancing PSM efficiency and effectiveness
