**Writing the Polish American Woman in Postwar Ethnic Fiction** Grażyna J. Kozaczka,2019-02-26 Though often unnoticed by scholars of literature and history Polish American women have for decades been fighting back against the patriarchy they encountered in America and the patriarchy that followed them from Poland Through close readings of several Polish American and Polish Canadian novels and short stories published over the last seven decades Writing the Polish American Woman in Postwar Ethnic Fiction traces the evolution of this struggle and women s efforts to construct gendered and classed ethnicity Focusing predominantly on work by North American born and immigrant authors that represents the Polish American Catholic tradition Gra yna J Kozaczka puts texts in conversation with other American ethnic literatures She positions ethnic gender construction and performance at an intersection of social class race and sex She explores the marginalization of ethnic female characters in terms of migration studies theories of whiteness and the history of feminist discourse Writing the Polish American Woman in Postwar Ethnic Fiction tells the complex story of how Polish American women writers have shown a strong awareness of their oppression and sought empowerment through resistive and transgressive behaviors Instructor ,1997

**Cajun Literature and Cajun Collective Memory** Mathilde Köstler,2022-12-19 How does Cajun literature emerging in the 1980s represent the dynamic processes of remembering in Cajun culture Known for its hybrid constitution and deeply ingrained oral traditions Cajun culture provides an ideal testing ground for investigating the collective memory of a group In particular francophone and anglophone Cajun texts by such writers as Jean Arceneaux Tim Gautreaux Jeanne Castille Zachary Richard Ron Thibodeaux Darrell Bourque and Kirby Jambon reveal not only a shift from an oral to a written tradition They also show hybrid perspectives on the Cajun collective memory Based on recurring references to place the texts also reflect on the Acadian past and reveal the innate ability of the Cajuns to adapt through repeated intertextual references The Cajun collective memory is thus defined by a transnational outlook a transversality cutting across various ethnic heritages to establish and legitimize a collective identity both amid the linguistic and cultural diversity in Louisiana and in the face of American mainstream culture Cajun Literature and Cajun Collective Memory represents the first analysis of the mnemonic strategies Cajun writers use to explore and sustain the Cajun identity and collective memory Second-Generation Memory and Contemporary Children's Literature Anastasia Ulanowicz,2013-09-02 Winner of the Children s Literature Association Book Award This book visits a range of textual forms including diary novel and picturebook to explore the relationship between second generation memory and contemporary children s literature Ulanowicz argues that second generation memory informed by intimate family relationships textual mediation and technology is characterized by vicarious rather than direct experience of the past As such children s literature

is particularly well suited to the representation of second generation memory insofar as children's fiction is particularly invested in the transmission and reproduction of cultural memory and its form promotes the formation of various complex intergenerational relationships. Further children's books that depict second generation memory have the potential to challenge conventional Western notions of selfhood and ethics. This study shows how novels such as Lois Lowry's *The Giver* (1993) and Judy Blume's *Starring Sally J. Freedman as Herself* (1977) both of which feature protagonists who adapt their elders' memories into their own mnemonic repertoires implicitly reject Cartesian notions of the unified subject in favor of a view of identity as always already social, relational, and dynamic in character. This book not only questions how and why second generation memory is represented in books for young people but whether such representations of memory might be considered radical or conservative. Together these analyses address a topic that has not been explored fully within the fields of children's literature, trauma and memory studies, and Holocaust studies.
