A Zoo Man's Notebook Lee Saunders Crandall, William Bridges, 1966      **A Zoo Man's Notebook** Lee Saunders Crandall, William Bridges, 1975      **A Zoo Man's Notebook** Lee Saunders Crandall, 1966      A Zoo man's notebook. By Lee S. Crandall in collaboration with William Bridges. [With illustrations.]. Lee Saunders CRANDALL, William BRIDGES (Curator of Publications, New York Zoological Park.), 1966      The Animal Game Daniel E. Bender, 2016-11-07

The spread of empires in the nineteenth century brought more than new territories and populations under Western sway. Animals were also swept up in the net of imperialism as jungles and veldts became colonial ranches and plantations. A booming trade in animals turned many strange and dangerous species into prized commodities. Tigers from India, pythons from Malaya, and gorillas from the Congo found their way, sometimes by shady means, to the zoos of major U.S. cities where they created a sensation. Zoos were among the most popular attractions in the United States for much of the twentieth century. Stoking the public's fascination, savvy zookeepers, animal traders, and zoo directors regaled visitors with stories of the fierce behavior of these creatures in their native habitats, as well as daring tales of their capture. Yet as tropical animals became increasingly familiar to the American public, they became ever more rare in the wild. Tracing the history of U.S. zoos and the global trade and trafficking in animals that supplied them, Daniel Bender examines how Americans learned to view faraway places and peoples through the lens of the exotic creatures on display. Over time, as the zoo's mission shifted from offering entertainment to providing a refuge for endangered species, conservation parks replaced pens and cages. The Animal Game recounts Americans' ongoing, often conflicted relationship with zoos, decried as anachronistic prisons by animal rights activists, even as they remain popular centers of education and preservation.

**Museum Masters** Edward P. Alexander, 1995. Alexander brings to life the stories of twelve ambitious leaders from the United States and Europe who helped shape the future of the museum world.

Zoo Story Thomas French, 2010-07-06. This story, told by a master teller of such things, does more than take you inside the cages, fences, and walls of a zoo. It takes you inside the human heart and an elephant's and a primate's, and on and on. Tom French did in this book what he always does: He took real life and wrote it down for us with eloquence and feeling and aching detail. Rick Bragg, Pulitzer Prize-winning journalist and bestselling author, offers an insightful and detailed look at the complex life of a zoo and its denizens, both animal and human.

Yann Martel, author of *Life of Pi* and *Beatrice and Virgil*, welcomes us to the savage and surprising world of *Zoo Story*, an unprecedented account of the secret life of a zoo and its inhabitants. Based on six years of research, the book follows a handful of unforgettable characters at Tampa's Lowry Park Zoo: an alpha chimp with a weakness for blondes, a ferocious tiger who revels in Obsession perfume, and a brilliant but tyrannical CEO known as El Diablo Blanco. The sweeping narrative takes the reader from the African savannah to the forests of Panama and deep into the inner workings of a place some describe as a sanctuary and others condemn as a prison. *Zoo Story* shows us how these remarkable individuals live, how some die, and what their experiences reveal about the human desire to both exalt and control nature.
