**Christian Democracy in Western Germany** Geoffrey Pridham,1977 *Christian Democracy in Western Germany* Geoffrey Pridham,1989 **Christian Democracy in Western Germany (RLE: German Politics)** Geoffrey Pridham,2014-12-17 This important study analyses the development of the CDU CSU as a political force in West Germany from the Second World War to the late 1970s with special reference to its role both in Government 1949-69 and Opposition 1969-76 and considers how it was instrumental in the formulation of governmental policies The first part of the book looks at the development of the CDU CSU The second part focuses on its composition and structure and considers such aspects as its organisation membership auxiliary organisations and electoral appeal and campaigns A separate chapter deals with the CSU's relationship with the CDU its leadership and its organisation **Democracy in Western Germany** Gordon Smith,1985

**Christian democracy in Western Germany** Geoffrey Pridham,1977 *The Other '68ers* Anna Von der Goltz,2021 This is a history of 1968 written from a new perspective that of center right student activists in West Germany Based on oral history interviews and new archival sources it examines the ideas experiences and repertoires of center right students in this age of protest Writing these activists back into the history of 1968 and its afterlives including student protest cultural revolt internationalism debates about left wing violence and the terror of the Red Army Faction the memory wars of the 1980s and beyond reveals that this was a broader more versatile and ultimately more consequential phenomenon than the traditionally narrower focus on a left wing minority allows Other 68ers demonstrates that we need a more nuanced history of the 1968 generation and of generational conflict during these years Student activists comprised individuals from across the political spectrum who often had very different ideas about what kind of a society they envisaged and how to address the shortcomings of West German democracy 1968 was a moment of intense political conflict but it also played out within the student body and nurtured contrasting identities This book shows that the center right involvement in 1968 had real consequences Many of the protagonists of this book would go on to pursue high profile political careers and leave their mark on West German political culture Other 68ers therefore sheds fresh light on how West Germany's center right dealt with the crisis of hegemony and political identity it experienced in the wake of 1968 how it coped with generational change how it transformed and modernized after losing power at the national level for the first time in 1969 and how it managed to re-emerge so successfully in the 1980s **Democracy in Western Germany** Gordon R. Smith,Gordon Smith,1986

women and the welfare state its organisational development and change and its position within the party system Contributors particularly emphasise the diversity of the CDU and the way it varies across Germany's regions The CDU is compared to other Christian Democratic parties and special consideration is given to the CDU's Bavarian sister party the Christian Social Union CSU This book was published as a special issue of German Politics

Religion and Politics in Turkey Barry Rubin, Ali Çarkoğlu, 2013-09-13 Over the last decade the once marginal extreme right of the Turkish ideological spectrum has grown in size as well as in influence and has effectively reshaped party competition in Turkey Policy mandates and electoral bases of the rising extreme right rely on potentially explosive social cleavages in the country One such confrontation is between the secularist and pro Islamist forces which has always been one of the centrepieces of modern Turkish politics The rise of pro Islamist electoral forces from a marginal to an undeniably imposing position in Turkish electoral politics has led many to worry that a deep rooted schism has come to the forefront of Turkish politics The frontline of this secularist vs pro Islamist confrontation is quite widespread ranging from a debate around the ban of turban and headscarves in universities to religious education in the country from Islamic principles in the economy to Turkish foreign policy towards the Middle Eastern countries This volume was previously published as a special issue of the journal Turkish Studies

Reinventing Germany Anthony Glees, 1996-08 In this stimulating book a leading expert on German affairs provides an

overview of German political development since 1945 The key to the well being and prosperity of Europe after 1945 was the creation of a stable and democratic West Germany Unification in 1990 not only transformed Germany s role in Europe and the world but brought new political social and economic problems caused by the vast expense of unity and high labour costs The author argues that these great changes provide a new and daunting challenge to the Bonn system by calling into question the Berlin Republic s ability to meet the needs of the German nation The difficulties resulting from Germany s commitment to European integration are also addressed Within Europe German insistence on deeper integration is often seen as evidence of a German wish to dominate Europe even though the stated aim of Kohl s government is to prevent this from happening The author believes that Germany s new power is clearly visible and must be carefully managed if future conflict is to be avoided Germany Klaus H.
