**An Examination of the Theme of Discipleship in The Seven Churches of Revelation** Steve L. Roy,2021-09-15 Go and make disciples Our command is clear our mission is given But what exactly is a disciple and what does discipleship really mean In An Examination of the Theme of Discipleship in the Seven Churches of Revelation Dr Steve Roy takes the reader to the book of Revelation and to the specific letters from Jesus Christ himself These letters help the reader to discover dramatically important conclusions as to what discipleship is and what it means to be a disciple Through each of the letters to the seven churches Jesus follows a particular pattern of discipleship and applies it to the specific churches in western Asia Minor These patterns and instructions are just as relevant for us today as they were when John the Revelator sent them This book is written for the person who wants to take discipleship seriously and for the pastor who stands before his congregation weekly with the purpose of making disciples **Digital Media and Youth Discipleship** Vo Huong Nam,2023-06-30 Today s youth grow up immersed in digital technology This presents a unique challenge to the church as it seeks to faithfully make

**Kingdom Apprenticeship** Keas Keasler,2026-03-24 A Groundbreaking Analysis of Dallas Willard s Theology of Spiritual Formation Dallas Willard s formational theology begins with the claim that the aim of God in human history is the formation of a community of loving persons apprenticed to Jesus and ends with the promise that such apprenticeship prepares us to share in God s governance of the cosmos This apprenticeship to Jesus is the path to human flourishing the renewal of the church and the healing of the world In Kingdom Apprenticeship Keas Keasler offers the first comprehensive study of Willard s theology of spiritual formation He argues that while the three D s of disciples discipleship and disciplines made Willard famous his formational theology is much deeper than that Willard s unique grammar of transformation is grounded in ordinary life for it is in our present reality that we are trained to participate in God s eternal purposes Mining Willard s philosophical works theological writings recorded lectures and unpublished papers Keasler shows Willard s theology serves as a practical curriculum for spiritual growth offering a remedy for the character crisis we see in the church and in society Apprenticeship to Jesus is both for growth in Christlikeness and preparation for reigning with God in the fullness of his kingdom Spiritual formation is not secondary or supplementary to God s mission it is its very strategy Against the drift of modern theology into abstraction Willard calls the church back to a clinical theology one aimed at the transformation of character through an interactive life with God Formation and mission contemplation and action inner renewal and outward vocation all are inseparably linked in Willard s vision Kingdom Apprenticeship offers a fresh and urgent call to recover apprenticeship to Jesus as the heart of the Christian life and the hope of the world

ministry     *Spirituality in Ministerial Formation* Andrew D. Mayes, 2009 In recent years theological education and training for both lay and ordained ministry have been reconceived in terms of ministerial formation But what is the origin of this paradigm and what difference does it actually make to both teachers and learners This study not only addresses these questions but also offering perspectives from the Eastern Christian traditions and from empirical research uncovers a dynamic role for prayer in the learning process It explores how different types of prayer have the potential to be a significant integrative cognitive healing empowering influence in ministerial formation and to enable a transformative process of deep learning It will prove not only to be a reference book for all practitioners in the field of theological education but also a practical workbook for teachers and students as its questions for individual or group use challenge present practice and open up new possibilities for the healing of the historic divide between theology and spirituality The book identifies elements for the development of a rich theology of ministerial formation which will enhance and energize the practice of theological education Seeking to re balance training and formation it invites a rethink of current functionalist approaches to professionalized lay and ordained ministry in terms of discovering creative and surprising functions of spirituality within the learning process The book thus has implications for the teaching of spirituality highlighting the need to articulate an integrated spirituality of education It also addresses important aspects of the Church s mission in society and the imperative of resourcing clergy and lay ministers for their engagement with the rising interest in spirituality in today s culture Book Jacket
