**Christian Parenting in Today's World** DR DAVID E. MILLER,2006-03 **Christian Parenting** David P.

Setran,2022-06-21 What can the past teach us about what it means to be a good Christian parent today Today s parenting guidance can sometimes feel timeless and inviolable especially when it comes to the spiritual formation of children in Christian households But even in the recent past parenting philosophies have differed widely among Christians in ways that reflect the contexts from which they emerged In this illuminating historical study David Setran catalogs the varying ways American Protestants envisioned the task of childrearing in the seventeenth eighteenth and nineteenth centuries Comparing two main historical time periods the colonial era and the Victorian era Setran uncovers common threads opposing viewpoints and the cultural and religious influences behind the dominant parenting postures of each era The implications of his findings matter for today s big questions about parenting Should children be viewed as basically good in need of protection from corruption or as fundamentally sinful in need of moral correction How should parents address misbehavior Should a parent s primary role be that of teacher disciplinarian or nurturer What importance should be attributed to devotions and prayer church involvement Sabbath keeping home decorating and fun family activities What consideration should be given to gender Should boys and girls be raised differently Do mothers and fathers have essentially different responsibilities As he surveys these historical perspectives Setran reflects on the legacy and future of Christian parenting concluding that the Protestant heritage encourages the importance of intentional devotional practices the development of close parent child bonds and the creation of godly household environments In the end he argues that all of these historical values are critical to the full expression of Christian parental love This is a love that teaches because it wants to help children understand true goodness that admonishes and restrains because it wants to protect children from whatever keeps them from true pleasure and joy that fosters strong relationships so children might experience the lavishness of God s love that models Christlike sacrifice and guides children into the arms of their Creator **Teachable Moments** Jonathan Robinson,2016-07-07 Communication

Successful Christian Parenting John MacArthur,1998 More than ever Christians need to know what the Bible actually teaches about parenting and put it into practice In Successful Christian Parenting pastor teacher John MacArthur presents time proven principles of biblical parenting clearly and carefully to help parents make sense of their duties before God and to bring up their children in the ways of the Lord Christian Parenting Gardiner Spring,2014-12-30 Be what you wish your

child to be the saying goes So much is accomplished by the power of example It influences children long before instruction can inform or authority can bind Rules constrain example is alluring Rules compel example persuades Rules are a dead law example a living law Next to the law of conscience example is the first law with which children are acquainted and it often remains their strongest motive to action after all others are forgotten Children are imitative beings and they quickly understand what they see and hear The example of an affectionate and watchful parent is a powerful influence No child is too young to be the accurate observer of its parent s conduct and to be purified or contaminated by that example However unwittingly we are constantly molding our children s minds habit and character by the power of our example Who among us desires for our children to be unyielding overbearing contemptuous unkind unfriendly or discourteous But if they discover these in us our example will govern their conduct Perhaps most to the point in this very affluent society we do not want our

children to be afraid of work or hardship so why do we ourselves pursue fashion and leisure The message quickly forms in their minds My parents do not consider hard work or diligence or redeeming the time to be reputable or pleasurable They are satisfied with an easy life With such a message is it likely that our children will aspire to hard work usefulness and accomplishment We want our children to be honorable and completely truthful We want them to be punctual and thorough But if they hear us extolling these virtues and know that instead we bend the truth and are disorganized and careless will not our conduct trump our teaching How Not to Totally Put Your Children Off God Howard Worsley,2020-04-17 Parenting can be the best or worst of times It can be a role we love best or one that causes great insecurity There is no formal training for parenthood There are no clear benchmarks of success and yet it demands all our resources skills and attention Parenting has no blueprint This book is the merging of the author s deep convictions of parenting with examples of both When it worked and When it did not work He has also elicited the help of his sons to write their perspectives on how their experiences and memories connect or differ from his own Each chapter has two sections Section A contains reflections on habits that seemed to work in passing on faith Section B then reflects on the same habit but from a more critical perspective These five chapters come from the author s experiences as a dad as a Christian leader and as a theologian The first section in each chapter marks those habits that he believes in passionately They are the Do s those habits formed in parenting for faith They emerged in the business of parenting and have become clearer over life The second section notes when parenting seemed to go wrong These are the nightmares that skulk around the edges of a parent s consciousness the failures when high hopes are not realised However it could be that in these cock ups in being a parent are when the actual parenting for faith is really carried out That at least is the comment made by the three sons commenting on the script
