existential theology through how it manifests itself in genres this book brings together lesser known figures well known thinkers and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms **Unamuno, Berdyaev, Marcel** C. A. Longhurst, 2021-10-01 This book seeks to examine the mutual interplay between existentialism and Christian belief as seen through the work of three existentialist thinkers who were also committed Christians a Spaniard Miguel de Unamuno a Russian Nikolai Berdyaev and a Frenchman Gabriel Marcel They are compared with each other and with leading non religious existentialists The major themes studied include reason freedom the self belief hope love suffering and immortality The Cambridge Dictionary of Christianity, Two Volume Set Daniel Patte, 2019-11-20 The Cambridge Dictionary of Christianity is an authoritative reference guide that enables students their teachers Christian clergy and general readers alike to reflect critically upon all aspects of Christianity from its origins to the present day Written by a team of 828 scholars and practitioners from around the world the volume reflects the plurality of Christianity throughout its history Key features of The Cambridge Dictionary of Christianity Provides a survey of the history of Christianity in the world on each continent and in each nation Offers a presentation of the Christian beliefs and practices of all major Christian traditions Highlights the different understandings of Christian beliefs and practices in different historical cultural religious denominational and secular contexts Includes entries on methodology and the plurality of approaches that are used in the study of Christianity Respects each Christian tradition by providing self presentations of Christianity in each country or Christian tradition Includes clusters of entries on beliefs and practices each examining the understanding of a given Christian belief or practice in different historical and contemporary contexts Presents the relationship and interaction of Christianity with other religious traditions in the world Provides on a Web site <http://hdl.handle.net/1803/3906> a full bibliography covering all topics discussed in the signed articles of this volume **Kierkegaard** Sylvia Walsh, 2008-11-14 Soren Kierkegaard 1813-1855 was first and foremost a Christian thinker who is perhaps best known for his devastating attack upon Christendom or the established order of his time Not since Luther has there been a Protestant thinker who has so uncompromisingly sought to define and present Christianity in its utmost integrity Characterizing Christianity as an existence communication rather than a doctrine Kierkegaard sought to portray what it means to be a Christian in the strictest sense in the interest of reintroducing authentic Christianity as an existential possibility for every individual in the modern age Sylvia Walsh explores Kierkegaard's understanding of Christianity and the existential mode of thinking theologically appropriate to it in the context of the intellectual cultural and socio political milieu of his time She contrasts his approach with objective ways of doing theology which in his view falsify Christianity and the believer's relation to it The study begins with a biographical overview of the personal and intellectual influences theological upbringing important events and phases of authorship in Kierkegaard's life Walsh highlights some of his most important contributions to Christian thought

concerning the Christian understanding of God our human condition in anxiety sin and despair and the task of becoming a self before God Christ as the absolute paradox redeemer and prototype the Christian life of faith hope and love and the relation of religion culture and society **Existentialism and Christian Thought** Roger Troisfontaines,1949 **Living Christianly** Sylvia Walsh,2010-11 The pseudonymous works Kierkegaard wrote during the period 1843-46 have been responsible for establishing his reputation as an important philosophical thinker but for Kierkegaard himself they were merely preparatory for what he saw as the primary task of his authorship to elucidate the meaning of what it is to live as a Christian and thus to show his readers how they could become truly Christian The more overtly religious and specifically Christian works Kierkegaard produced in the period 1847-51 were devoted to this task In this book Sylvia Walsh focuses on the writings of this later period and locates the key to Kierkegaard's understanding of Christianity in the inverse dialectic that is involved in living Christianly In the book's four main chapters Walsh examines in detail how this inverse dialectic operates in the complementary relationship of the negative qualifications of Christian existence sin the possibility of offense self denial and suffering to the positive qualifications faith forgiveness new life love hope and joy and consolation It was Kierkegaard's aim she argues to bring the negative qualifications which he believed had been virtually eliminated in Christendom once again into view to provide them with conceptual clarity and to show their essential relation to and necessity in securing a correct understanding and expression of the positive qualifications of Christian existence

Contemporary Existentialism and Christian Faith John Rodman Williams,1965 **The Committed Self** Victor A. Shepherd,2015-01-03 The Committed Self is a clear and compelling introduction to Existentialism the root of Postmodernism and according to Victor A Shepherd still the most significant philosophy of our times Focusing on Hegel Kierkegaard Nietzsche Buber Heidegger and Sartre and their passionate commitment to the authenticity of the self Shepherd maintains that Existentialism has much to say to Christians with its understanding of What it is to be a human being How diverse forces operative in the world and in the psyche shape human self awareness The manner in which radical commitment forges and forms that self which is nothing less than a new birth Shepherd believes that an acquaintance with Existentialism will aid Christians in negotiating the minefield they think life has become And he persistently draws attention to the manner in which Existentialism recalls theology to its proper vocation whenever theology appears to be in danger of becoming a species of rationalism that uses religious vocabulary **The R.C. Sproul Collection Volume 2: Essential Truths of the Christian Faith / Now, That's a Good Question!** R.C. Kierkegaard's Christian Existentialism: Unresolved Tensions in the Sickness Unto Death Christine Elizabeth Ewing, 2000 [A Christian Perspective of Postmodern Existentialism](#) John D. Carter, 2021-06-08 The Western Humanism originating in classical Greek philosophy where the capacity of human reason became the dominant means for perceiving a worldview based in reality reigned in Western philosophy until the onset of Postmodern Existentialism in the mid twentieth century Plato's Theory of Forms prepared the Western gentile mind to accept the rationality of a transcendent ultimate reality and in so doing steered the gentile mind from its bent to pantheistic deities The apostle Paul boldly proclaimed to the Athenians that their unknown god was indeed the transcendent God of Abraham Isaac and Jacob Christianity prevailed in Western philosophy until the Enlightenment which was the result of the unprecedented success of the scientific method began to turn the Western mind to the

existentialistic idea of the relativity of moral truth

So What's New About Scholasticism? Rajesh Heynicks, Stéphane Symons, 2018-07-09 In *So What's New about Scholasticism* thirteen international scholars gauge the extraordinary impact of a religiously inspired conceptual framework in a modern society. The essays that are brought together in this volume reveal that Neo Thomism became part of contingent social contexts and varying intellectual domains. Rather than an ecclesiastic project of like minded believers, Neo Thomism was put into place as a source of inspiration for various concepts of modernization and progress. This volume reconstructs how Neo Thomism sought to resolve disparities, annul contradictions and reconcile incongruent new developments. It asks the question why Neo Thomist ideas and arguments were put into play and how they were transferred across various scientific disciplines and artistic media growing into one of the most influential master narratives of the twentieth century. Edward Baring, Dries Bosschaert, James Chappel, Adi Efal, Lautenschlager, Rajesh Heynicks, Sigrid Leyssen, Christopher Morrissey, Annette M Iberger, Jaume Navarro, Herman Paul, Karim Schelkens, Wim Weymans and John Carter Wood reconstruct a bewildering yet decipherable thought structure that has left a deep mark on twentieth century politics, philosophy, science and religion.

Christianity and the Existentialists Carl Michalson, 1956 The chapters included in this volume were delivered in their original form as public lectures in Craig Chapel of Drew University during the academic year 1953-54. They comprise the fifteenth series of lectures to Christian Biography on a foundation established by President and Mrs Ezra Squier Tipple. The selection of the participants in the lectureship followed easily upon the choice of the subject. The lecturers were assembled under a commission entitled *The Challenge of Christian Existentialism*. The major motive in this title is clear: A cultural movement which is exercising so great an influence upon the reformulation of Christian thought deserves to be appraised.

Preface

Existential Theology Hue Woodson, 2020-09-29 *Existential Theology: An Introduction* offers a formalized and comprehensive examination of the field of existential theology in order to distinguish it as a unique field of study and view it as a measured synthesis of the concerns of Christian existentialism, Christian humanism and Christian philosophy with the preoccupations of proper existentialism and a series of unfolding themes from Augustine to Kierkegaard. To do this *Existential Theology* attends to the field through the exploration of genres, the European traditions in French, Russian and German schools of thought, counter traditions in liberation, feminist and womanist approaches and postmodern traditions located in anthropological, political and ethical approaches. While the cultural contexts inform how each of the selected philosopher-theologians present genres of existential theology, other unique genres are examined in theoretical and philosophical contexts, particularly through a selected set of theologians, philosophers, thinkers and theorists that are not generally categorized theologically. By assessing existential theology through how it manifests itself in genres, this book brings together lesser known figures, well known thinkers and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms.
