The Archivist Rex Pickett,2021-11-09 A November Book Pick from The New York Times When archivist Nadia Fontaine is found dead of an apparent drowning Emily Snow is hired by Regents University to finish the job she started to organize and process the papers of Raymond West a famous Pulitzer Prize winning author who has been short listed for the Nobel Emily's job comes with its inherent pressures West's wife Elizabeth is an heiress who is about to donate 25 million to the Memorial Library an eight story architectural marvel that is the crown jewel of the university The inaugural event in just a few months will be a gala for the who's who of San Diego to celebrate the unveiling of the Raymond West Collection and the financial gift that made it all possible As Emily sets to work on the West papers it begins to dawn on her that several items have gone missing from the collection To trace their whereabouts she gains

unsupervised access to the highly restricted dark archives in which she opens a Pandora's box of erotically and intellectually charged correspondence between Raymond West and the late Nadia Fontaine. Through their archived emails Emily goes back a year in time and relives the tragic trajectory of their passionate love affair. Did Nadia really drown accidentally as the police report concluded or could it have been suicide or even worse murder? Compelled to complete the collection and find the truth, Emily unwittingly morphs into an adult Nancy Drew and a one-woman archivist crusader on a mission to right the historical record. Twisting slowly like a tourniquet, *The Archivist* turns into a suspenseful murder mystery with multiple and intersecting layers. Not just a whodunit, it is also a profound meditation on love, privacy, and the ethics of destroying or preserving materials of a highly personal nature. **Hodder & Stoughton's sixpenny novels.
