The longitudinal study begins in the 1920s when the League of Nations launched several initiatives to reduce strong nationalistic visions in textbooks and ends in the new millennium with the revival of national narratives in both countries. The analysis shows how and why textbook authors have narrated different histories which vary in terms of context, epoch and place as echoing events by using recurring plots and the same combinations of historical analogies. This innovative and original study thus investigates from a new angle the resistance of national narratives to change.

Enabling Access Barry Carpenter, Rob Ashdown, Keith Bovair, 2001. The turmoil surrounding the implementation of the National Curriculum has subsided and the authors of this book offer ways of providing education to pupils with learning difficulties as well as encouraging parent involvement in the process.
